VOL. XXXVI BELLEFONTE, PA., THURSDAY MORNING. NOVEMBER 5, 1903. NO. 41

THE ORGAN CONTEST ENDED

Lutheran Church at Pleasant Gap Prove Winners.

BY A SAFE MAJORITY OF VOTES

The Bellefonte Republican Will Present Them With the Organ—The Vote was Lutheran, Pleasant Gap 4453, Union Chapel 3510.

OTHER SCATTERING VOTES CAST

The contest which has been going on ever since last July for the handsome Burdett organ which the BELLEFONTE REPUBLICAN agreed to present to some deserving church or Sunday school in Centre county which should receive the most votes on coupons cut from that paper closed on Saturday evening at 6 o'clock and the Lutheran church of Pleasant Gap succeeded in carrying off the prize.

On last Thursday the vote showed the Union Chapel in the lead, they being over 800 ahead. Very few votes were cast until Saturday when they began to pour in. The mails brought a large number of letters containing coupons, some coming from points as far as Philadelphia. The interest in the contest was therefore widespread. Over 2000 votes were turned in Saturday by friends of the Lutheran church, while the Union Chapel cast about 350.

The judges in the contest were W. Harrison Walker Esq., and William N. Haines, the latter a draughtsman for the Standard Scale & Supply Company. They had arranged to make the final count of votes at 7 o'clock and with that end in view the ballot box, which was sealed up at 6 o'clock was taken to Fortney & Walker's office and with the senior member of the law firm, David F. Fortney and the publisher of the Republican as witnesses the count took place.

It resulted as follows :

Pleasant Gap Lutheran	4453
Union Chapel	3510
Coleville Chapel	67
Bellefonte Evangelical	51
Lemont Methodist Church	8
Total	8088

Immediately after the count closed the result was telephoned to Pleasant Gap and the friends of the Lutheran church expressed themselves as much pleased with the result.

The Union Chapel made a plucky fight and up to the last minute appeared to have the best of the contest. The publisher of the REPUBLICAN only regrets that he has not two organs instead of one to present as the Union Chapel is certainly a worthy congregation and deserving of support.

SALONA GROOM, RENOVO BRIDE.

Popular Young Couple United in the Holy Bonds of Matrimony.

A very pretty wedding took place at the Methodist Episcopal parsonage in Renovo at 4 o'clock Tuesday afternoon, Oct. 27, when George R. Krape and Miss Effie M. Bucher were united for life by Rev. Dr. A. R. Miller.

The groom is the son of G. W. Krape, of Salona, a young man of sterling qualities. He is a mechanic and at present is in the employ of Roadhouse, Airing, Searing & Company, contractors for the extensive improvements now being made by the P. R. R. company at Blair Furnace.

The bride is the highly esteemed and accomplished daughter of Mr. Adam Bucher, one of the leading business men of Altoona. After the ceremony the happy young couple remained in Renovo, as the guests of Rev. and Mrs. A. R. Miller at the parsonage until 3 p. m. the day following, when they boarded the Buffalo, flyer for Buffalo, Niagara Falls and other places of interest to be absent some time in the enjoyment of their honeymoon. On their return they will take up their residence in Altoona.

Bridges Almost Completed,

The American Bridge company has a force of 25 men at work on the bridge of the N. Y. C. railroad across the Bald Eagle creek two miles east of Beech Creek. The old bridge will be replaced with a new and heavier girder bridge, also of two spans, without any interruption of traffic. The work of replacing all the old bridges with heavier structures from the viaduct to that place has been going on all summer and now is almost completed.

DOINGS OF COUNCIL.

Matters of Importance Which Demanded Bore Fathers Attention.

The regular semi-monthly session of the boro council met Monday evening at 7:30 o'clock with the following members present : Jenkins, Reynolds, Fenlon, Wise, Whittaker, Derstine, Kirk.

In the absence of President Cunningham, Col. Reynolds moved seconded by Mr. Derstine that Dr. Kirk act as president pro tem. The motion carried.

The minutes of the previous meeting were read and approved after which council proceeded to discuss business before them.

Burgess Walker, Water Superintendent Ryan and Street Commissioner Thos. Shaughnessy were in attendance. Among the visitors in attendance were C. T. Gerberich and the Misses Miller.

The Misses Miller asked a reduction of their water tax. The present is $2.50. Their request was granted.

Mr. Gerberich appeared in regard to a $2,000 note and $1500 order which he held against the boro.

Wm. Reed asked for 6 month exoneration of water tax as he was away from home for that length of time and did not use the water, it being turned off. The request was referred to Finance committee with power.

D. F. Fortney Esq., submitted the new ordinance book to council. He called attention to several important ordinances on this book which should be enforced.

He called attention especially in regard to the one requiring the fixing of grade of streets,

Chairman Derstine of the street committee reported that the Water street wall is about completed.

Chairman Fenlon of the Water committee reported the amount of outstanding water duplicate and the expenses of the Water Department. His report was a general report on his department.

Chairman Whittaker of the Fire and Police committee reported three fires during the past two weeks.

Burgess Walker turned in $23.25 collections from fees and licenses for the month of October.

The street committee recommended Thompson's concrete pavement to be laid along Water street. The matter was discussed at length. Mr. Fortney's opinion as to the boro liability to lay pavement was read. A committee of six was appointed, which included the three members of the Street committee to consult with Mr. Thompson and arrange for building a concrete pavement on Water Street.

The electric light company contract which they submitted last meeting was discussed with a few alterations. This gives a rate of $72 a light per year instead of $80 as at present. The street committee are authorized to draw up a contract with the company and hand it back to council for approval.

Two bids were received from J. H. Lingle for putting in a water wheel and pump at Water Works. Referred to Water Improvement Committee.

Col. Reynolds moved that High, Allegheny and Linn streets be graded, and the grade be recorded. When any property holder applies for a grade on any street the whole street be graded.

The appropriations for the fire companies were granted, $250 to the Logans and $200 to Undines.

Mr. Gerberich's note and order amounting to $3.500 with interest was ordered paid

The following bills were approved and orders drawn :

W. T. Kelly	$ 12.80
Water Street Wall Pay Roll	298.00
Police Pay Roll	51.50
P. R. R. Co. freight	2.00
Thos Shaughnessy	1.00
T. L. Bullock	4.35
Street pay roll	81.53
Water Works Pay Roll	149.50
Phoenix Station	27.00
Jno. Noll	86.25
H. Muelles Mfg. Co	11.45
P. R. R.	68
Adams Express Co.	90
Thos. Beaver,	9.44
J L Montgomery, coal for W. W.	96.77
	$832.87

Death of Elwood Fisher.

It is with sincere regret that we are called upon to chronicle the death of Elwood Fisher, a highly respected and esteemed resident of Union Township, whichsad event occurred Monday evening. Mr. Fisher was aged about 47 years and was a son of the late William P. Fisher. He had been a great sufferer from a complication of diseases for about two years which reduced him to almost a skeleton.

He had been married twice, his first wife having died several years ago. He was married the second time to Miss Mary Zimmerman who survives him with a little son, Herman. He is also survived by the following brothers and sisters Thomas W. of Unionville and W. P., of New York; Mrs. Mary Holmes, of New Jersey; Mrs. Cora McMinn, of DuBois; Mrs. Lucreta Way, Half Moon and Miss Jennie at home.

The funeral of Elwood Fisher will take place from his late residence in Union Twp. this afternoon at 2 o'clock. The services will be in charge of the Odd Fellows, of which he was a prominent member.

Mountains on Fire.

Nittany mountain between Zion and Hecla has a line of fire on both the Greens valley and Nittany sides which extends from top to bottom and is gradually working its way east, destroying immense tracts of valuable timber land. The leaves being dead and not yet all off the trees, the flames will leap to the branches and burn the leaves from the limbs, causing a very picturesque scene and yet carrying destruction in its wake. The line of fire is too extensive to be controlled by hand and a rain is hoped for.

A GREAT GAME.

Academy Scores a Great Victory at Bellwood.

The Bellefonte Academy eleven went to Bellwood on Saturday and defeated the crack team of that place in one of the prettiest and cleanest games of the season, by the close score of one safety touchdown, or two points, to nothing. This Bellwood eleven is one of the strongest amateur teams in Central Penna. and has not been beaten in four years, until the defeat of Saturday, nor scored on in three years. The teams were so evenly matched in weight and skill that it seemed impossible for either one to score by rushing tactics. The game became necessarily, therefore a kicking one, much to the delight of the large crowd of spectators.

This is where the Academy excelled, for Keichline always gained in exchanging kicks with the Bellwood full back. One of Keichlines long points in the first half was caught near the goal line by the Bellwood fullback, who attempted to run back the kick, but Capt. Vandeventer was upon him like a flash and threw him back over the goal line for a safety touchdown, the only score of the game. Every Academy player deserves praise for his fine work.

The day was an ideal one for football. Everybody seemed to be in the happiest spirit, not a scrap among the players or the spectators occurring to mar the pleasure of the day, and the most cordial and friendly treatment was accorded the Academy boys from the time they entered Bellwood until they left. Our boys came home full of praise for the good treatment they had received.

A beautiful and, interesting contest will be the return game with Bellwood on the Bellefonte Fair Grounds on Saturday Nov. 21. On that day the field will be roped off and special officers detailed to keep the crowd off the field in order to give both players and spectators the fairest kind of a chance. The Academy boys say that everything will be done to out do the Bellwood players in according them the very best kind of a time when they come to Bellefonte.

The team from the hill lined up as follows :

Left end—Capt. Vandeventer.
Left Tackle—Phil Weaver.
Left Guard—McCandless.
Centre—Lauder.
Right Guard—Waldron.
Right Tackle—Rollofs.
Right End—Montgomery.
Quarter—John Weaver.
Left Half—Ferguson.
Right Half—Keichline.
Full Back—McGee.
Coach Sharpe accompanied the eleven.

—John Mitchell, the noted labor leader, will speak in the opera house at Lock Haven next Sunday afternoon at 2 o'clock.

RESULT OF THE ELECTION

Pennsylvania Rolls Up Plurality of 217.784 for Republican Ticket.

HANNA WINS IN STATE OF OHIO

Tammany Gains Control in Greater New York—Quietest Election in Years—Fifty Per Cent of Normal Vote Cast.

FARMERS BUSY HUSKING CORN

PHILADELPHIA, November 4.—Estimates from the sixty-seven counties of the state indicate a plurality for Mathues, Republican, for State Treasurer of 217.784. Snyder for Auditor General and Morrison and Henderson for Superior Court were given approximately the same immense plurality. Snyder, who became the object of criticism because as a State Senator he voted for what is popularly known as the "Press Muzzler" law was apparently very little cut.

Returns indicate Republican gains in 48 counties amounting to 71,006, and Democratic gains in 18 counties of 5,825.

It is apparent from the nature of the estimates received during the night that the official count will increase the Republican plurality to such an extent that it may reach 225,000.

United States Senator Penrose, chairman of the Republican State Committee, said last night on account of fine weather conditions the vote throughout the state Tuesday was extremely light. This is especially true of the farming districts, where only 50 per cent. of the normal vote was polled. Senator Penrose said the Democrats had suffered even more than the Republicans, and that the Republican majority would be as large as usual. In the counties where interest was aroused by the judicial counties the full vote was polled.

The following are the Common Pleas Judges elected in the state :

W. Wilkins Carr, Dem., Philadelphia.
Robert [illegible]chzisker, Rep., Philadelphia.
Mahlon H. Stout, Rep., Bucks.
George Kunkel, Rep., Dauphin.
George S. Purdy, Dem., Wayne.
Martin Bell, Rep., Blair.
Frank M. Trexler, Rep., Lehigh.
Charles B. Staples, Dem., Monroe.
Henry M. Edwards, Rep., Lackawanna.
Allison O. Smith, Dem., Clearfield.
Joseph W. Bouton, Rep., McKean.

THE RESULT IN OHIO.

COLUMBUS, November 4.—On scattering returns received up to 7:20, the Republicans claim that they have a plurality approximating a hundred thousand and over two-thirds of each branch of the Legislature. The indications are that the Republican vote turned out much better than the Democratic vote.

At 9:30 p. m. it was estimated the Republican plurality in the State would not be less than 165,000. The Republicans at that hour had carried all the doubtful counties for members of Legislature that were heard from.

At 10 p. m. Chairman Dick issued a statement that Herrick, Republican, for Governor, would have a plurality in excess of 100,000, and that the Republicans would have at least 60 majority on joint ballot in the Legislature for the re-election of Hanna.

At 10:15 p. m. Senator Foraker telegraphed Senator Hanna his congratulations from Cincinnati. Senator Foraker said that Hamilton county would give a Republican plurality of about 30,000. At the same hour, Elmer Dover, Senator Hanna's private secretary, estimated that the Republicans will have a majority of 80 in the Legislature in joint ballot.

Shortly before midnight Chairman Dick announced that the Herrick plurality for Governor would exceed 125,000, and that there would be over 100 of the 143 votes in the Legislature for the re-election of Senator Hanna. It is thought that the Republican majority in the Legislature on joint ballot will exceed 75, or double that of any previous Legislature.

MASSACHUSETTS.

Boston, Mass., November 3.—John L. Bates was re-elected Governor of Massachusetts Tuesday by a plurality of about 37,000 over Colonel William A. Gaston, the Democratic candidate.

With returns from every town and city in the state the total vote for Governor was : Bates, Republican, 199,793; Gaston, Democrat, 163.544.

KENTUCKY.

Louisville, Ky., November 4.—The re-election of Governor John C. Beckham, the Democratic candidate, over Colonel Morris B. Belknap, Republican by a majority of fully 15,000 seems assured. The Republicans concede the election of Governor Beckham.

MARYLAND.

A full vote was polled in Maryland and Edward Warfield, democrat, is elected Governor, The legislature which is to elect a United States Senator is democratic.

NEW JERSEY

Trenton, N. J., November 4.—The Republicans in New Jersey Tuesday elected four of the six State Senators and enough in the Assembly to control both houses.

This insures the election of a Republican United States Senator to succeed Senator Kean.

NEBRASKA

Omaha, Neb., November 4.—The World-Herald (Democrat) says the latest returns indicate that Barnes, Republican, will have a majority over Sullivan of 4,000 outside of Douglass county. Later returns may change these figures.

IOWA

Des Moines, Iowa, November 4.—Returns received up to midnight indicate the re-election of Governor Cummins by a plurality of 60,000 and of his associates on the Republican ticket by substantially the same pluralities. At the Democratic headquarters so large a plurality is not conceded.

COLORADO

Denver, Col., November 4—Chairman Fowler, of the Republican State Central Committee, claims the election of Campbell for the Justice of the Supreme Court by 5,000. At Democratic headquarters it is claimed that Wilson, Democrat, will have a large plurality in the state.

THE RESULT IN CENTRE.

Ideal Weather and the Farmers Busy and as a Result a Light Vote —Little Interest Shown.

The election in Bellefonte and Centre County passed off very quietly, comparitively little interest being displayed and a light vote being polled. The weather was ideal and as the farmers are back with their corn husking they took advantage of the good weather and stayed away from the polls to attend to their work.

As a result only about fifty per cent of the usual vote was cast and the returns came in slowly. This affected both the Republicans and Democrats alike.

The only candidates to be voted for on the county ticket are Jury Commissioner and the law makes both elected. John D. Decker was the Republican candidate and Frederick Robb democratic.

The state ticket ran very close with the result in doubt, awaiting official returns.

In Bellefonte boro there was a great slump in the vote. The North ward went Republican by a greatly reduced majority and the Democrats carried the South and West wards.

The complete official returns of the county are published in another part of this paper in table form. The county is close but the Republicans have carried it by a majority of less than 25.

Injured in Run Away Accident.

A serious runaway accident occurred Tuesday morning near Loganton in which Mrs. Howard Condo had an arm broken and was otherwise bruised.

Jacob Stabley, who lives on the mountain road near Rauchtown accompanied by his wife and Howard Condo and his wife and child were driving into Loganton with two horses in a spring wagon when at a point on the Sugar valley road near the school house, his team took fright at some unknown thing and plunged down the hill at break neck speed. Mr. Stabley was unable to check them and when they reached a curve in the road near Isaac Duck's house the wagon capsized, throwing the occupants all out, breaking Mrs. Condo's arm and badly injuring Mr. Stabley. The other occupants escaped with bruises and cuts but nothing of a serious nature. Mrs. Condo was carried into the home of Isaac Duck and Dr. Goodman called and set the arm after which all were taken to their homes.

—The Western Star Jubilee Singers are booked for Petrikin Hall Monday evening Nov. 9th. This company of singers comes highly recommended and should be greeted by a large audience.

THE ALLENTOWN MURDER

Thomas Bechtel, a Brother of Murdered Girl Suicides

USED KNIFE ON HIS THROAT

The Police Department Considers His Act a Practical Acknowledgement of Guilt—Not Allowed to Attend Funeral.

BECHTEL WAS DEAD WHEN FOUND

ALLENTOWN, October 30.—Thomas Bechtel, who was held awaiting investigation of the murder of his sister, Mabel H. Bechtel, at their home a few days ago, committed suicide Thursday evening in his cell in the Central police station. The police consider this act as a practical acknowledgement of Bechtel's guilt. Bechtel was in cell No. 2 on the right side of the corridor. Several relatives and friends were admitted to see him Thursday afternoon. About 4 o'clock he called across the corridor to Alfred Eckstein, Miss Bechtel's affianced lover, who is also held pending the coroner's inquest.

"Hello, Al, are you there." "Yes," answered Eckstein.

Bechtel responded: "I wish you were here with me now, that we might die together."

These were the last words heard from Bechtel. A short time later Eckstein called Bechtel and got no answer, but he thought he heard an unusual gurgle. House Sergeant Frank G. Roth had been through the cells only a short time before.

At 6:15 o'clock he entered the corridor and called both men. Getting no answer from Bechtel he looked into his cell and was appalled to see a stream of blood running over the cell floor. Bechtel had laid himself on the bench in his cell and cut his throat with a knife. He was dead when found. The knife lay near him on the floor. Where he got the knife is not known. He was carefully searched when placed in the cell and no weapon was found. There is rumor to the effect that a newsboy passed the knife to him in the cell.

Bechtel was a single man and 30 years of age. He was a laborer doing odd jobs about the town and in the county. He was a hard drinker, and when intoxicated was easily angered and prone to fight. He was of powerful physique and possessed great courage.

The funeral of the murdered girl took place Thursday afternoon, the services being held at her home late. It was the family's intention to have the services and interment private, but when the undertaker took the remains from his morgue to the Bechtel residence Thursday morning many neighbors, relatives, silk mill associates and other friends, called at the home and the stream of people entered the house and filed past the casket containing the body, until the services began at 2 o'clock.

As the girl lay in the casket, her appearance told its own story. Both eyes were badly discolored as though they had been struck by a clenched fist. There was a big bruise on the nose and several smaller ones on the cheeks and ear. The worst wound, that on the forehead, was hidden by her hair. On a finger was the engagement ring given her by Alfred Eckstein.

Gathered about the bier of the murdered girl was the aged mother, who is a physical wreck and who is almost constantly in hysteries: the three daughters, and three of the four sons. The absent one was Thomas. He had been refused permission to attend the funeral on the advice of the district attorney. When Bechtel was told that he would not be permitted to leave his cell to take a parting farewell of his dead sister he raved. His fury was intense. The family also felt bitter.

The services were conducted by the Rev. Joseph Specht, a veteran Evangelical Lutheran clergyman. Interment was made in the Bechtel family plot in West End cemetery, where the bodies of the girl's brother, Robert, her sister, Lizzie, who committed suicide by drowning in the Lehigh river in 1885, and her father, George Bechtel, who died in 1902, are buried. A large crowd surrounded the house during the services and another crowd was at the cemetery to witness the interment.

The suicide of Thomas Bechtel has been followed by the police officials telling the story of the murder of Miss Bechtel as gathered by them. It starts with last Thursday, when Eckstein accompanied Miss Bechtel to Philadelphia.

This happened immediately after midnight. The body was concealed in the home until Monday night, when it was placed in the areaway, where it was found Tuesday morning. Eckstein knew nothing of the murder, the police say.

He left her there and returned home. Weisenberg met her in Philadelphia and accompanied her to Allentown, leaving there Sunday at 4 p. m. and reaching home four hours later. They went to a certain place together, where they remained until midnight. Thomas Bechtel heard of this, and being strenuously opposed to Weisenberg, he upbraided her in her room upon her return home. He struck her a powerful blow on the cheek, causing her to fall heavily against a bureau, dead. Members of the family held a council and decided upon the story made public on Tuesday, and upon the disposition of the body and clothing as found. Charles Bechtel's slaters hatchet was used in striking a blow on the head of the dead girl to give semblance of the assault.

The November 10 Story Book.

The November number of 10 Story Book is at hand. In the way of a cover novelty it has the feature of the month. The design is by Ike Morgan and consists of a startling silhouette in white on a field of lusterful blue. The contents is of equal if not greater merit than is found in this popular magazine. Such names as Elizabeth Phipps Train, H. S. Canfield, William Hamilton Osborne, Ada C. Sweet and Edgar Welton Cooley are among the authors of note listed.

A decidedly unique story is the "Fable of Apollo" by Elizabeth Phipps Train. It displays the ingenuity of this gifted writer at her best. Mr. Canfield's contribution is an exquisite satire on the ubiquitous hotel clerk relating a little adventure which brought that pompous worthy to grief. "Biff Donovan," by William Hamilton Osborne, is a remarkably clever conceit. A shrewd crook and a complacent police force make the complication. Ada C. Sweet writes a strong dramatic story called "A Prank of Fate." "The Imprint on the Door," by Edgar Welton Cooley, is full of homely pathos and heart thrills. The selected masterpiece of the month is "The Confession" by Guy de Maupassant.

Put Hunters to Rout.

While Krebs Stewart and Peter Kimmel were hunting grouse Saturday in the vicinity of Bear Rocks, in the Alleghenies, north of Altoona, they encountered a group of five bears, a male and a female and three cubs. In his excitement Stewart fired both barrels of a shotgun into the family, slightly wounding all.

Before Kimmel could load up with buckshot the entire bruin family was after the two hunters with blood in their eyes. As Kimmel and Stewart retreated the male and female bears trailed them half a mile down the mountain before they abandoned the chase.

The cubs, which were almost full grown, were heading the stern chase the last time the hunters looked back.

In Jail, in the River, in the Hospital.

John G. Wagner, of Williamsport, who recently got out of jail, where he had been placed after being arrested on the charge of assaulting his wife, was fished out of the river near Maynard street at a late hour Wednesday night says the Gazette and Bulletin, and was taken to the hospital in the ambulance. To the hospital physicians Wagner related a tale of domestic infelicities and a story of adventure that would make Sinbad, the sailor, of Arabian Nights fame, envious. The incoherent and rambling talk of the rescued man leaves no doubt that his mind is affected.

A REMARKABLE CASE.

One of the most remarkable cases of a cold, deep-seated on the lungs, causing pneumonia, is that of Mrs. Gertrude E. Fenner, Marion, Ind., who was entirely cured by the use of One Minute Cough Cure. She says: "The coughing and straining so weakened me that I ran down in weight from 148 to 92 pounds. I tried a number of remedies to no avail until I used One Minute Cough Cure. Four bottles of this wonderful remedy cured me entirely of the cough, strengthened my lungs and restored me to my normal weight, health and strength." Sold by Green's Pharmacy.

Lost an Eye.

On Sunday, Oct. 18th, a peculiar accident happened to Mr. Will Johnson, who resides three miles east of Pine Grove Mills, which has resulted in the loss of one of his eyes.

Mr. Johnson has living with him his wife's sister, Miss Wilson, and on the day mentioned while Miss Wilson was carrying the things from the dinner table Mr. Johnson stealthily crept up behind her and bending over her, playfully jabbed her in the side with his thumb. The act caused her to throw up her hands in one of which she held a table fork, which struck Mr. Johnson in the eye. Dr. Woods was summoned and he found that the injury was most serious and directed the removal of the patient to the Bellefonte hospital which was done on the following Tuesday. Every effort was made to save the injured member which was finally found impossible and on Wednesday of last week an operation was performed in the hospital when the eye was removed.

A GOOD NAME.

From personal experience I testify that DeWitt's Little Early Risers are unequalled as a liver pill. They are rightly named because they give strength and energy and do their work with ease.—W. T. Easton, Boerne, Tex. Thousands of people are using these tiny little pills in preference to all others, because they are so pleasant and effectual. They cure billiousness, torpid liver, jaundice, sick headache, constipation, etc. They do not purge and weaken, but cleanse and strengthen. Sold by Green's Pharmacy.

UNREST HAS SUBSIDED

Financial Institutions In St. Louis Are All in Good Condition

OFFERS OF AID REJECTED

Banks and Trust Companies in Other Cities Proposed to Help But This Was Declined.

THE FLURRY VERY LIKELY ENDED

ST. LOUIS, Mo., October 29.—The statement of President Julius S. Walsh, of the Mississippi Valley Trust company, whose sentiments are echoed in interviews given to the Associated Press by other trust company officials of St. Louis, that "the situation is thoroughly in hand, the excitement has subsided, and from this on we expect business will be conducted in the usual orderly manner," expresses the opinion that seems general Wednesday night after the unwanted financial conditions which have prevailed here during parts of Tuesday and Wednesday. Officers of all the trust companies state that offers of help were received from financial institutions in New York, Philadelphia, Chicago, New Orleans, Kansas City, Boston and many of the smaller towns of Missouri and Illinois, but all were declined for the reason that they had sufficient cash with which to handle their business. Expressions of confidence and offers of aid on the part of the national banks, financial and other institutions of St. Louis have helped to strengthen the situation and restore confidence.

"The flurry is over," said A. A. B. Woerheide, president of the Lincoln Trust company. "Long before our regular closing hour arrived, all those who desired their money had received it and departed. There is no reason for further concern."

President Julius S. Walsh, of the Mississippi Valley Trust company said: "There is absolutely nothing in the past or present condition of our company to justify the slightest apprehension. All demands of every kind were met, and we had more cash on hand when we closed Wednesday afternoon than when we opened Tuesday morning."

J. J. Wade, president of the Mercantile Trust company, said: The Mercantile Trust company received voluntary offers from financial institutions of New York, Philadelphia, Chicago, New Orleans, Kansas City, St. Joseph and San Francisco sufficient to pay off every dollar of its deposits at once. All offers, while highly appreciated, were respectfully declined, as we closed the day with a million dollars more cash than we had when the silly rumor began."

John W. Harrison, first vice-president of the Missouri Trust company, said: "Other financial institutions have placed at our disposal any amount of cash funds that we might ask for in this contingency. We are pleased to say, however, that we have not been obliged to ask any financial aid whatever, and Wednesday had over $400,000 of cash in our vaults and ample funds at our command to meet all our liabilities of every description.

G. A. Buder, counsel for the American Central Trust company, said: "Our company is practically unaffected by the present flurry. I believe the situation is clear and that the worst is over."

Editorial Comment.

Senator Platt is too old a man, perhaps, to be reminded that marriage under any circumstances is no joke.—Chicago American.

Now that Carrie Nation has got her divorce and is free to marry again all the male tracks in her section of Kansas are said to be pointing away from her.—Atlantic Journal.

If Canada is really dissatisfied with the way England has treated her in the boundary settlement, she might once more take up the idea of identifying herself with the United States.—Chicago Chroincle.

Mr. Pennypacker has apparently recovered from his ambitions to be a press censor and is content to exercise the duties of governor, comparatively humble though they may be.—Washington Post

King Alfonso is going to take a trip through Europe to pick out a wife. And the trip is not likely to be a pleasant one, when it is considered how homely nearly all those European princesses are.—Denver Republican.

The Denver man who broke the world's record by dressing a steer in three minutes and twenty-three seconds must have dressed it in a Mother Hubbard. He could hardly have put silk stockings and buttoned shoes on the animal in that time.—Chicago News.

An Iowa clergyman received a $6,000 a year offer from the manager of a baseball club and accepted without taking time to prayerfully consider the call.—Atlantic Constitution.

Scrofula

Few are entirely free from it.

It may develop so slowly as to cause little if any disturbance during the whole period of childhood.

It may then produce irregularity of the stomach and bowels, dyspepsia, catarrh, and marked tendency to consumption before manifesting itself in much cutaneous eruption or glandular swelling.

It is best to be sure that you are quite free from it, and for its complete eradication you can rely on

Hood's Sarsaparilla

The best of all medicines for all humors.

HIDDEN 25 YEARS IN HIS HOME.

Youth Kept Concealed by Family for Quarter of Century.

Clyde, N. Y., Oct. 30.—The startling discovery has been made that Arthur Hamilton, who disappeared twenty-five years ago at a time when he was one of the most prominent young men in business and social life, had been in hiding all the years in the old Hamilton home here. Hamilton's mind is not in the least affected, and there is no explanation of his strange conduct.

Hamilton was about twenty-six years old when he dropped out off the village life. Suddenly, and without the slightest hint of his intention, he disappeared and was seen no more. In time the story that he had gone west to engage in some venture was accepted. Now it is found that Hamilton never left Clyde at all. He simply went upstairs to his room in the Hamilton homestead and there he has remained ever since, attended by the members of his family. Hamilton has spent his waking hours of the last quarter of a century in reading and smoking.

Great Salt-Coated Lake.

Probably the most remarkable lake in the world is one with a coating of salt that completely conceals the water. It may be seen at any time during the year, fully exposed, being seen at its best when the sun is shining directly upon it. This wonderful body of water is one of the saltest of the salt lakes, and is situated near Obdorsk, Siberia. The lake is nine miles wide and seventeen long, and within the memory of man was entirely roofed over by the salt deposit. Originally evaporation played the most prominent part in coating the lake over with salt, but now the salt springs which surround it are adding fast to the thickness of the crust.

In the long ago period evaporation of the lake's waters left great salt crystals on the surface. In course of time these caked together. Thus the waters were entirely covered. In 1878 the lake found an underground outlet into the River Obi, which lowered its surface about three feet.

The salt crust was so thick, however, that it retained its old level, and now presents the curious spectacle of a salt roofed lake. The salt coat increases six inches in thickness every year. The many islands with which the lake is studded are said to act as braces and to keep the arched salt crust in position.

Charming Ballads.

Whether the public is becoming more frivolous or more sentimental is a question, but the fact remains that very few modern productions even of the most serious character are made nowadays without a song being interpolated to lighten the action and to bring it down (or up) to the public taste.

In "Mrs. Wiggs of the Cabbage Patch" it is the singing of "Lovey Mary's" two charming ballads "Cuddledown Town," and "In the Land of Make Believe," that catches on, and lends the play its most serious human appeal.

In "Capt. Barrington," as played by Charles Richman, there is a song by Charles Klein called "Here's to Loved Ones at Home," and sung as it is by a crowd of soldiers who are supposed to be in camp far, far away from home, it makes one of the most touching moments of the play. Contrary to all canons of dramatic art and much to the disconcertion of the players, they are obliged to halt the action of the play and give encore on this charming song.

Left Her $1,090,000.

New York, Oct. 30.—When Maximilian Hershel was told by the surgeons of St. Luke's hospital on July 25 that he had only a few hours to live he called to his bedside the one woman who had befriended him in his declining years and delivered to her a key. That woman was Mrs. William George, who was living at Fordham Heights with her husband and four children.

"You have been like a daughter to me all these years," said the dying man. "Take this key. It will open the safety deposit box, where all that I possess is kept. You will find enough to keep you."

Hershel was something of a recluse, Mrs. George knew that he had been thrifty. The old man had lived for years in a little room in a house at Forty-fourth street and Madison avenue. After his death Mrs. George unlocked the safety deposit vault, and found $1,090,000, all in gilt-edged security.

HOOD'S PILLS cure Liver Ills, Billousness, Indigestion, Headache. Easy to take, easy to operate. 25c.

YES OR NO?

Bellefonte People Are Respectfully Asked to Answer These Questions.

Is there anything in the evidence of one's senses?

Is there anything in the testimony of one's friends?

Can reliance be placed upon statements from people we know?

Are the opinions of local citizens of any greater moment than those of strangers?

Would you sooner believe people living in some far-away place than citizens of your own city?

We think not for home proof can easily be investigated.

Curtis Johnson, of 583 Bishop street, freight truckman, says: "I had backache and lameness across my loins for a year or more. At times the lameness was so acute I could lift nothing and if I stooped it was impossible for me to straighten. When driving there was a steady aching over my kidneys the whole time and I had a dull tired feeling which took away all my ambition. I procured Doan's Kidney Pills from F. Potts Green's drug store and they soon cured me from the whole combination of troubles and they did it quickly and thoroughly. My wife was also suffering from a tired, grinding backache and she used Doan's Kidney Pills and they invigorated her generally. She now speaks of them as highly as I do. We never came across any remedy which surpassed Doan's Kidney Pills."

For sale by all dealers. Price 50 cents. Foster—Milburn Co., Buffalo, N. Y. sole agents for the United States.

The Price of Pleasure.

It is hard for a lovely woman to forego the pleasures of the life which she was created to enjoy and adorn. She may have to be busy all day in office or in store, yet she cannot deny herself the social pleasures which are offered her.

But the fatigue is often too great for her, and she suffers from headache and backache as a consequence of over-exertion.

Women who are tired and worn out will find a perfect tonic and nervine in Dr. Pierce's Favorite Prescription. It cures headache, backache and the other aches and pains to which women are subject. It establishes regularity, dries weakening drains, heals inflammation and ulceration, and cures female weakness. It makes weak women strong and sick women well.

"I am so pleased with your instructions, I hardly know what thanks to give you for your kind favors," writes Mrs Milo Bryant, of Lota, Thomas Co., Ga. "I suffered so much with great pains in my back and the lower part of my stomach and palpitation of the heart, that at times I could hardly lie down. Could hardly get up in the morning, but after using three bottles of 'Favorite Prescription' and two vials of Dr. Pierce's Pleasant Pellets, I am like a new woman."

Sick women, especially those suffering from diseases of long standing, are invited to consult Dr. Pierce, by letter, *free*. All correspondence is held as strictly private and sacredly confidential. Address Dr. R. V. Pierce, Buffalo, N. Y.

THE BATTLE OF ANTIETAM.

Close of a Series of Articles by Col. Austin Curtin.

It was clearly proven he had nothing to do with the firing from his house. The soldiers took possession of his house, without as much as saying "by your leave", and he could not prevent it. He had remained at home to save his property, and had lived all the time in the cellar of his house. When at Sharpsburg on this occasion, I inquired for and about him, every one there knew of the circumstances, I found he was not only living there but was a hale and hearty man, I looked him up and had along talk with him and got many ideas about the land and the Battle which I did not know before or had forgotten. His name is Solomon Lumm. He lives in the western end of the town and any person going there and making inquiries for him will find him, I relate the above as one of the incidents of our visit, any one reading this who belonged to the 45th, will readily recall the circumstance of the captured and badly scared Miller.

With conversation, song and story and listening to a street preacher, and at the same time to a Socialist talking which seemed to last almost the whole evening both talking at one time, (one on one corner of the Square and the other on another,) we passed the time waiting for a delayed train and did not take carriages for station until a very late hour. Train two hours behind time, did not arrive in Hagerstown until nearly 12 midnight. Had a good nights rest however, at a good hotel and while we missed connection for last train for Harrisburg, we took first one, Sunday morning and while others went on to Harrisburg to wait there over Sunday as few could make home that day, the Gen'l and myself stopped off at Scotland Industrial School and spent a very pleasant time. We were heartily welcomed although Capt. Skinner, Superintendent was not at home he was represented by Col. Bambrick the genial, gentlemanly Principal and Military Instructor and by Miss Martin the excellent Matron and all the officers and teachers as the writer is well known by them. The services in the chapel Sunday morning were as they always are, much enjoyed by him, and to speak before the smiling and bright eyed children (nearly 300) is an inspiration. In the p. m. a carriage was tendered to the Gen'l and the writer and accompanied by two of the teachers (Misses Harkness and Kieffer) Chambersburg was visited and the place visited where the Second Regiment was encamped in the 3 months service. The Gen'l belonged to that command (the Old Bellefonte Fencibles was Co. H. of that Reg't in the beginning of the war), where they were encamped was a Fair ground and is now a clover field A most beautiful view is obtained from it and with other places visited in the town the afternoon passed away quickly and pleasantly and we returned to the School in time for supper, having had a delightful day, and visit, and left the next morning for home where we arrived on Monday p. m. having had a trip that will long be remembered by us and one on which we met many old comrades of days gone by and renewed friendships formed years ago, and made the acquaintance of others we have the hope that on the 17th, of Sept 1905 when the Monuments are to be unveiled that every man of our various commands alive at that time will be able to meet there and go over the once well known field and fight the old historic Battle of Antietam over again,

AUSTIN CURTIN,
Late of 45th, P. V. V.

PARKS CONVICTED.

Convicted of Extortion for a Second Time in Two Months.

JURY OUT TWELVE MINUTES

It Was Shown During the Trial That He Had Obtained $500 from a Firm of Contractors.

HE WAS REMANDED FOR SENTENCE

NEW YORK, October 31.—For the second time within two months Samuel J. Parks, walking delegate of the Housesmiths and Bridgemen's union, local No. 2, was convicted of the crime of extortion in the court of general sessions, during which time it took two ballots to agree on the guilt of Parks in exterting $500 from the Tiffany studios, a firm of contractors, under threat of keeping them from continuing work on buildings last January, It was shown at the trial that Parks had obtained $500 from the Tiffany firm as an "initiation fee" last January, when the Housesmiths and Bridgemen's union men were on strike on three of the contracts in this city. Parks claimed that the money was a fine levied by his labor union. Later the fact developed that Parks had been disloyal to his union inasmuch as he permitted the Tiffany firm to employ non-union men on certain jobs after having received the $500. This accusation was not denied by the defendant or his counsel during the trial, but the latter contended that Parks had given the money to the treasurer of his organization and that the entire transaction was a business deal, which, instead of being a crime, afforded considerable business advantage to the firm that paid the money. Counsel for Parks endeavored to introduce certificates as to the prisoner's delicate state of health, but Judge Newburger, before whom the case was tried, refused to admit them.

Mr. Osboane, Parks' counsel, made a fine defense, although he had weak grounds to stand on.

In his charge Judge Newburger said that it made no difference what disposition Parks made of the money after he had obtained it from therepresentatives of the Tiffany firm, if in the belief of the jurymen he had obtained it under a threat, direct or implied, as that fact would constitute extortion, the crime charged against the prisoner.

When the jury was polled and the verdict rendered Parks glared at the jurymen with the same look of defiance which he maintained during this as well as his previous trial. He was remanded for sentence a week hence. Parks is now awaiting the decision of the higher courts on a writ of error, having been sentenced after the first trial to a term of not less than two and a half nor more than three and a half years in Sing Sing prison.

The charge on which his former conviction was secured also was extortion.

For Over Sixty Years.

Mrs. Winslow's Soothing Syrup has been used for over sixty years by million of mothers for their children while teething with perfect success. It soothes the child, softens the gums, allays all pain, cure wind colic, and is the best remedy for diarrhoea. It will relieve the poor little sufferer immediately. Sold by all druggists in all parts of the world. Twenty-five cents a bottle. Be sure and ask for Mrs. Winslow's Soothing Syrup and take on other kind.

Henry Detweiler.

After an illness of more than a years duration with Bright's disease of the kidneys Henry Detweiler passed away at his home in Smullton early Tuesday morning.

He was born near Annvill, Lebanon county, 74 years, 2 months and 25 days ago and when only 7 years old came with his parents to locate in Penn township, near Millheim. He lived there until he married Miss Catharine Yeakle and started ont to make a home for himself. She lived only nine years after their marriage, leaving him with three of their four children, viz: John W., of Seattle, Washington; Lewis, of Entiat, Washington, and James, of Johnsonburg. In 1859 he remarried, this time his bride was Miss Sarah Harter, who survives him with their two children. H. A. Detweiler and Mrs. G. P. Garrett, of Rebersburg.

Mr. Detweiler was a representative citizen of that community, active in public affairs and steadfast in his devotion to the Evangelical church, of which he was a useful member.

Funeral services were held Thursday morning and interment was made at Rebersburg. Revs. Buck and Harman officiated.

PHYSICIANS PRESCRIBE IT.

Many broad minded physicians prescribe Foley's Honey and Tar, as they have never found so safe and reliable a remedy for the throat and lung troubles as this great medicine. C. M. Parrish.

—Roger T. Bayard, whose illness has caused his friends so much concern, is improving fast at the Bellefonte Hospital and is now on the sure road to recovery.

for

Bronchitis

Correct any tendency to constipation with small doses of Ayer's Pills.

—The big six-acre map of the United States that the Bureau of Plant Industry will show at the World's Fair in growing crops, is taking on more positive form every day. Supt. Boodie has all the great map outlined with a broad belt of blue grass. The paths that mark the boundaries between the states are nearly all out and many of the plants that make up the map are installed. Much of this planting can not be done until the frost is out of the ground next spring, but the work has progressed sufficiently to insure the success of the unique undertaking.

—Negotiations were completed recently by which the Mann Edge Tool company of Lewistown has secured an option on the large axe manufacturing works o the American Axe & Tool company at Mill Hall. The option lasts until January 1, 1904, at which time the local company expects to take possession of the new plant and run it in conjunction with the one at Lewistown.

—W. A. Herren of Finch, Ark., writes, "I wish to report that Foley's Kidney Cure has cured a terrible case of kidney and bladder trouble that two doctors had given up." C. M. Parrish.

Dedicated Free of Debt.

The new M. E. church at Oak Grove was freed from debt at its dedication Sunday evening. There was still $1,300 debt on the church, and this sum the congregation was asked to contribute. The response was so liberal that $63 more than this amount was realized. Dr. E. J. Gray, of Williamsport, had charge of the dedicatory services. Among the gifts to the church by people outside of Oak Grove are a silver communion set, pulpit bible and hymnals and chairs for the choir.

—Foley's Honey and Tar always stops the cough and heals the lungs. Refuse substitutes. C. M. Parrish.

Fatal Hunting Accident.

Charles Marien, a well known young man of Karthaus, was accidentally shot and killed on Sunday, by Peter Roley, while they were returning from establishing a hunting camp on the mountains back of Mosquito creek.

Roley stopped to light his pipe and his hand struck the hammer of his gun, the load entering young Marien's stomach. He died a few hours later.

The young man was said to have been the most expert miner in Karthaus, and was held in high esteem.

RARE WHISTLER PICTURES.

Newly Discovered Works of Noted Artist to Be Shown In America.

William E. Curtis, the Chicago Record-Herald's correspondent, writing from London about the late James McNeill Whistler says: "After the death of the American artist not long ago his house and studios on the Chelsea embankment were found filled with portraits, sketches, etchings and other works which his friends knew nothing about, and they are said to include several examples superior to any that he ever exhibited. They have been inherited by Miss Rosalind B. Philip, his sister-in-law, executrix and only heir at law, for he was a widower without children. His estate was appraised at $52,000. Among these newly discovered works is a remarkable portrait of George Vanderbilt, which evidently was painted several years ago, but it has never been exhibited or discussed. Why Mr. Whistler should have retained it in seclusion has not been explained. Perhaps Mr. Vanderbilt can throw some light on the subject, but he has not done so, or perhaps it did not suit the artist, who was always very critical of his own work. There are several other equally mysterious portraits, all of them fine examples of Whistler's peculiar style. Those who have seen them declare that they are the best work he ever did.

"Whistler's friends in England want to make an exhibition of these works as an evidence of his greatness and as a rebuke to the Royal academy, which refused to elect him a member, but Mr. Freer of Detroit, Mich., who was one of Whistler's most devoted friends and owns about seventy of his pictures, has taken possession of his artistic effects and is packing them for shipment to the United States, where they will be exhibited at Boston next winter under the auspices of the Copley society. This arrangement causes much disappointment and chagrin in London, where it was expected that the first exhibition would be given. There is a story in circulation, which I cannot verify, that the collection will remain permanently in the United States as a monument to Whistler and be located either in New York or Boston. The matter lies with Mr. Freer, but he is not ready, even if he is able, to talk definitely on the subject.

YACHT AMERICA MAY RACE.

Famous Cup Winner May Sail Across the Ocean In Lipton Cup Contest.

According to Butler Ames, owner of the famous old schooner yacht America, winner of the cup that bears her name, the boat is very likely to be started in the transatlantic race next May, for which Sir Thomas Lipton has offered a $5,000 cup, says a Boston special to the New York Times.

"The America is stanch and sound today, and I have no hesitation in saying that I believe she can sail across the Atlantic next summer if necessary without mishap," said Butler Ames.

"It is too soon to say anything positively, because the whole thing has been hardly considered yet," added Paul Butler, "but I know of no reason that would make it impossible for the America to enter the race if it is to be free for all, as announced."

The America is at present out of commission, tied up at Chelsea bridge, in Boston, but she is stanch and sound and could easily be put in condition.

A Woman Coach For a University.

Woman's sports at Northwestern university of Chicago will soon receive an impetus by the acquisition of an athletic coach, says the Indianapolis News. Through the influence of the Woman's Athletic association an appropriation has been secured from the university, and a coach will soon be selected. Basket ball is the favorite sport. The new coach will act as physical director and coach of the basket ball team. The officers of the Woman's Athletic association are as follows: Miss Emily H. Greenman, president; Miss Fannie Campbell, vice president; Miss Emily Harris, secretary; Miss Ella Treanese, treasurer; Miss Olive Siberts, junior member of the board of control, and Dr. O. F. Long, faculty member of the board of control.

England's New Grape.

A rare and interesting event in viticulture is recorded in a new seedling grape raised by the head gardener to Lord Hastings, says a London cable dispatch to the Chicago Inter Ocean. A cross between the two well known varieties, the Gros Colmar and the Lady Hastings, the new grape is claimed to be superior to either, being more fleshy, larger and a better traveler. Perhaps its greatest advantage, however, is the fact that it attains perfection when the season for other British grapes is ended. The new grape is at its best in the winter months.

The Falling of the Leaves.

The summer days have been and gone;
The flowers bloom no more.
The birds have ceased their merry song
And flown to faroff shore.
Old ocean's waves have lost their charm;
The summer girl has passed;
The crops are all stored in the barn;
Jack Frost approaches fast.
October's winds a requiem sing.
And Mother Nature grieves;
The old year's life is ebbing fast
Mid the falling of the leaves.

Vacation days long since are o'er;
We've all returned to town,
And mid the striving throng once more
We struggle for renown.
But often with the sun's last gleam,
When daily tasks are done,
Come visions of the mountain stream,
Of the fishing rod and gun.
And once again one sees the pines;
Their glorious air he breathes.
These memories come to all at times
With the falling of the leaves.
—L. V. Rodda in Pittsburg Dispatch.

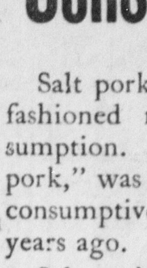
Consumption

Salt pork is a famous old-fashioned remedy for consumption. "Eat plenty of pork," was the advice to the consumptive 50 and 100 years ago.

Salt pork is good if a man can stomach it. The idea behind it is that fat is the food the consumptive needs most.

Scott's Emulsion is the modern method of feeding fat to the consumptive. Pork is too rough for sensitive stomachs. Scott's Emulsion is the most refined of fats, especially prepared for easy digestion.

Feeding him fat in this way, which is often the only way, is half the battle, but Scott's Emulsion does more than that. There is something about the combination of cod liver oil and hypophosphites in Scott's Emulsion that puts new life into the weak parts and has a special action on the diseased lungs.



A sample will be sent free upon request.

Be sure that this picture in the form of a label is on the wrapper of every bottle of Emulsion you buy.

SCOTT & BOWNE,
CHEMISTS,
409 Pearl St., N. Y.
50c. and $1; all druggists.

This
famous remedy does for the stomach that which it is unable to do for itself, even if but slightly disordered or overburdened.
Like a Comet
in the sky comes the star of health to the weak and weary despondent dyspeptic, curing all stomach troubles and digestive disorders.
Kodol
supplies the natural juices of digestion and does the work of the stomach, relaxing the nervous tension, while the inflamed muscles and membranes of that organ are allowed to rest and heal. It cures indigestion, flatulence, palpitation of the heart, nervous dyspepsia and all stomach troubles by cleansing, purifying and strengthening the glands, membranes of the stomach and digestive organs.
Kodol Dyspepsia Cure
Your Dealer Can Supply You.
Bottles only. $1.00 Size holding 2½ times the trial size, which sells for 50c.
Prepared by E. O. DeWITT & CO., CHICAGO.

EARLE C. TUTEN.

EDITORIAL.

Did you cast a vote?

Pennsylvania still heads the list.

Well, its all over again for another year.

Next year there will be few stay-at-homes.

It was a dull election day in Bellefonte.

What's the matter with Hanna? He's all right.

Centre County is Republican. Make a note of it.

New York's red lights are being trimmed and burnished.

It seems that New York city deserves the bad to the good.

Republicans have much to encourage them in Tuesday's election returns.

The defeat of Judge Gordon in Clearfield county is cause for general regret.

Dowie is receiving many bogus checks in New York and is paying out many good ones.

The Alaskan Boundary may be marked on ice but there is no danger of its melting away.

The Porto Ricans wish the world to know that President Roosevelt uses their coffee on his table.

If Richard Croker should send over a cup challenger he might gain some of Sir Thomas Lipton's popularity.

If Centre can go Republican by ever so small a majority in an off year, what can't she do in a Presidential year.

We might console Canada by agreeing to give her part of the north pole after Lieutenant Peary finds it.

Senator Hanna's suggestion that Bryan's followers should use more soap is not an original fling at the "great unwashed Democracy."

By voting with the Americans Lord Alverstone settled the Alaskan Boundary dispute. The trouble he may have thus averted will never be fully known.

When Senator Hanna and Senator M'Comas get back to Washington they can compare notes as to how it feels to be used as an issue in a political campaign.

Senator Gorman declared in a speech, "No greater crime has ever been perpetrated against the women of the South than the emancipation of the negro by constitutional amendment."

In the future we will be willing to arbitrate with England. The Geneva award and the Alaskan decision should convince us of the innate and historic bigness and fairness of the Mother country.

WILLIAM P. SNYDER,
Auditor General Elect.

EDITORIAL COMMENT.

Even the Standard Oil octopus has shrunk $243,000,000, but it has gone right along raising the price to the people.—Memphis Commercial-Appeal.

Oh, well, those who are disappointed in the verdict of the Tillman jury can take comfort in the fact that Curt Jett got his deserts in Kentucky, and that shows that the jury system is improving in spots.—Memphis Morning News.

Bishop Fowler sees great danger to the peace of the Christian world in the attitude of Russia. But it must be said that the Bear's aggression at present seems to be directed chiefly at the pagans.—Buffalo (N. Y.) Times.

The campaign in Pennsylvania is as uninteresting as a piece of clockwork mechanism before the time at which it has been rigged to do a given thing.—Providence (R. I.) Journal.

Mr. Schwab's friends say that he was sick when he did that Ship trust job, and they wonder what he would have done if he had been well.—Birmingham (Ala.) Ledger.

Alaska was without a mile of railroad four years ago. Now it has 10,000 miles in operation, or under construction. The big territory, as it is prospected; will develop many agreeable surprises.—St. Louis Globe-Democrat.

Laborers employed by the city gave up $3 50 each to a collector for the Republican machine on their last pay day. It appears from this that there is a campaign in progress—a campaign for money from all the city's employes.—Philadelphia Record.

The marrying of American girls by foreign potentates may be hard on America, but it is a mighty good thing for the rest of the world to have a clear-headed, independent, big-hearted American woman somewhere in the community in case of an emergency.—Baltimore American.

St. Louis woman are horrified to find that their husbands are members of a secret order whose devotees bequeath their skulls for the decoration of the lodge rooms. Perhaps these fellows did not contribute any brains, while alive. How about the skeleton of the goat?—Augusta Chronicle.

Real Estate Transfers.

The following real estate transfers were recorded during the past week by Recorder J. C. Rowe.

J. B. Mitchell Treas. to C. M. Bower, dated Aug. 26, 1874, 398 A. in Liberty Twp; consideration $31.32.

County Commissioners to H. C. Hyatt, dated June 23, 1900, 154 A. in Haines Twp; consideration $20.00

A FATAL ACCIDENT.

John Hasson Meets His Death Under Sad Circumstances.

John, the eldest son of Mr. and Mrs. Pool Hasson, of South Centre street, Philipsburg died Saturday afternoon at 1:15 o'clock, the result of a very sad accident, which occurred Saturday morning shortly after 11 o'clock. He and his younger brother, Ferd, were shingling the roof of a building used for storage purposes on the premises of Hon. P. E. Womelsdorff. The latter's son, Phil, and two of his young companions, Howard Rowland and Ed. Tate, were on a distant part of the roof, a little higher elevated, "shooting mark" at an object in the yard below, using a Flobert rifle or target gun, 22 calibre. Several shots had been fired, John Hasson himself having previously joined in the sport. Finally the empty gun was handed to Ed. Tate, who loaded it, and just as he was in the act of raising it to his shoulder to shoot, he slipped and fell, the weapon striking the roof and discharging. The ball, unfortunately, struck John Hasson, penetrating his stomach, and inflicting a wound that was at once pronounced most serious by the physicians who were hurriedly summoned. As soon as the shot struck him, he gave out a faint cry and fell over on his side. His brother Ferd, caught hold of him at once and prevented his falling from the roof. Help was at once summoned, and he was carried into the home of Mr. Womelsdorff, where all that could be done by medical skill was hastily performed to save his life. The physicians at once pronounced his case hopeless, and at the hour indicated his spirit passed away.

The deceased was aged about 18 years, and a young man of many pleasing qualities, industrious, and of late years had been of great help to his father in doing carpentering, etc. His death is a sad blow to his parents and other members of the home, and the greatest sympathy is felt by the entire community in the sorrow and bereavement that has so suddenly come to them.

Black Diamond Cement.

The cement business has grown to enormous proportion and several new plants costing from one to three million dollars each, are now under construction for making Portland cement. Such a business would succeed at or near Bellefonte, because the necessary shales and non-magnesian limestone exists here, conveniently situated for easy quarrying and burning. Indeed, I know of no place more suitable between the Lehigh district and Ohio or Kentucky than that along the foot hills of the Allegheny mountains.

There is, there can be; no better place to establish a plant of this kind than on the Harshberger farm in Bogg's township where for more than thirty years a plant has been operated in a primitive way by the owners and pronounced by all experts who used it, to be the best natural product of the kind, they ever used. Made in this primitive way, it is usually conceeded to be the best cement known, even as good as Portland and if manufactured by modern methods could not fail to be the best cement on the market or known to exist. The location too is ideal, none could be better. Only five hundred feet from the tunnel is the Bald Eagle Valley railroad, the grade to which is a gradual descent; cars could be loaded and sent to the station by gravity; full cars going to the station and empties returning without the use of horses or other power. The quantity of rock is almost inexhaustible and could be quarried for 100 years without being driven to the necessity of raising a pound of rock above the surface of the ground. The present operation is by a drift into the side of the hill, the mouth of the tunnel being at least thirty feet above the level of the road that passes along at its base. The farm on which this valuable deposit of nature is located, contains 150 acres. Mr. Harshberger not being able to operate the quarry will sell and has employed Alfred A. Dale Esq. with full power to dispose of the property on very reasonable terms. There is no doubt, there is a fortune for the man or company, with courage and money enough to establish a modern plant with an output of from 500 to 5000 barrels of cement a day.

Grange Meeting.

Centre County Pomona Grange No. 13 will hold its last regular meeting for this year, in Hall of Progress Grange at Centre Hall, Tuesday Dec. 1, 1903, 9:30 a. m. two sessions. This will be an important meeting. Fifth degree will be confered in full form at 1:30 p. m. Elections of officers for the next two years will take place just after the confering of this degree. Grange continuing in session in 5th degree till after the Election of officers when Grange will again open in 4th degree. Let there be a full attendance at this meeting.

Fraternally,
D. M. CAMPBELL,
Sec'y.

—A fire Friday did considerable damage to one of the buildings at the Birmingham seminary. It started in one of the upstairs rooms and had gained considerable headway before being discovered. By hard work the flames were extinguished and the building saved from destruction.

WILLIAM L. MATHUES,
State Treasurer Elect.

OPENING ENTERTAINMENT.

Of the People's Popular Course—The Metropolitan Concert Company.

A fair sized audience gathered in Petrikin Hall Friday evening to listen to the opening entertainment of the Peoples Popular Course. The attraction was the Metropolitan Grand Concert Company and a better feature could not have been selected for the opening entertainment than this company of ladies and gentlemen.

The program was high class throughout and the audience grew quite enthusiastic over the different numbers rendered.

Robert Kent Parker, the basso, possesses a voice of great power, depth and sweetness. "Don Juan's Serenade" and "The Vulcan Song" were rendered with great power and in faultless style. He was compelled to respond to many encores.

The charming little violinist, Miss Agnes Pringle fairly captivated her audience who were loud in their praise of her playing. Nothing to equal it has been heard in Bellefonte since Camille Urso played in Humes Hall years ago. She shows a masterly skill with this most difficult instrument producing a rich firm tone. She is young in years and impressed her audience favorably.

Miss Josephine Hanford, the soprano has a voice of beautiful richness and tone but last night she labored at a disadvantage owing to a cold, her voice finally failing her so that they had to change the last number on the program.

Mr. Walter Pyck, the pianist, played with exceptional precision, clearness and security. His rendering of "Fantasie La Cascade" by Pauer was heartily encored.

Altogether the company is one of exceptional merit and should they play a return date would no doubt be greeted by a large audience.

The manager of the Course is Mr. John S. Arnold, of Harrisburg, an energetic and capable business man, whom it is a pleasure to meet under any circumstances.

New Superintendent on Tyrone Division.

Word reached Bellefonte Saturday announcing the appointment of a successor to S. S. Blair, who retires on age from the Superintendency of the Tyrone Division of the Pennsylvania Railroad. The fortunate appointee is John Kilgore Johnston, of Altoona. Mr. Johnston's appointment went into effect November 1.

Mr. Johnston was formerly Principal Engineer on the Pennsylvania Railroad Division. This position is connected with the General Superintendency of the Grand Division. Mr. Johnston is 43 years old, was born in Westmoreland county and has been in the employ of the Pennsylvania Railroad for many years.

Fatal Accident at Milton.

George Kennard was struck and killed instantly near the nail mill siding at Milton Friday afternoon by Niagara express. Kennard was working as a brakeman on the Williamsport local going toward Sunbury which ran in on the nail mill siding to allow Niagara express to pass. While waiting, Kennard, who was in the caboose, came out and stepped directly in front of the passenger train. His body was hurled a great distance, but his body was not badly mangled. Death was instantaneous. The deceased is aged 23 years and had worked for the railroad company for three years.

William McNaime.

A former citizen of Ferguson township died on Sunday, 18, in the Altoona pest house of smallpox. The deceased was born near Rock Springs about 48 years ago. His death is mourned by his wife, who was Chestie Frank, a sister of Thomas Frank, of Rock Springs, four children, his parents, three sisters and four brothers.

Lewisburg Pastor to Marry.

Cards are out announcing the wedding of Rev. R. Leighton Gerbart, D. D., pastor of the St. John Reformed church, Lewisburg, and Miss Margaret Belle Quigley of Newburgh, Cumberland county. The wedding will take place at 6 o'clock Wednesday evening, November 4th.

The Influence of The Youth's Companion.

THE gospel of good cheer brightens every page of THE YOUTH'S COMPANION. Although the paper is nearly seventy-seven years of age, it does not look back on the past as a better period than the present.

THE COMPANION believes that the time most full of promise is the time we are living in, and every weekly issue reflects this spirit of looking forward and not back.

To more than half a million American familes it carries every week its message of cheer. Its stories picture the true characteristics of the young men and women of America. Its articles bring nearly three million readers in touch with the best thought of the most famous of living men and women.

Annual Announcement Number fully describing the principal features of THE COMPANION'S new volume for 1904 will be sent to any address free.

The new subscriber for 1904 will receive all the issues of THE COMPANION for the remaining weeks of 1903 free from the time of subscription, also THE COMPANION Calendar for 1904, lithographed in twelv colors and gold.

THE YOUTH'S COMPANION,
144 Berkeley street, BOSTON, MASS.

HON. JOHN J. HENDERSON,
Superior Court Judge Elect.

Tammany On Top in New York.

NEW YORK, November 4.—After a remarkable campaign, in which there was united against him nearly all the operators and practically every minister of religion in the city, George B. McClellan, son of the Civil War General, was Tuesday elected third Mayor of the Greater New York over Seth Low, Fusionist, the present Mayor, by the large plurality of 61,414.

Edward M. Grout was elected Comptroller and Charles V. Fornes president of the Board of Aldermen. These two men were originally on the Fusion ticket and were endorsed by Tammany, whereupon the Fusionists took their name from the Low ballots and nominated other candidates. It was the nomination of Grout and Fornes by Tammany that caused Hugh McLaughlin, the veteran leader of the Kings county Democracy, to bolt and declare that he would not support men who were not Democrats. In spite of his defection, however, McClellan, Grout and Fornes carried Kings county. The management of their campaign there was taken over by State Senator Patrick H. McCarren when McLaughlin refused his aid.

A Handsome Painting.

Among the art exhibits in the main building at the Centre County Fair this year was a painting of Gen. George Washington. It was the work of Mrs. K. J. Gibbs, of Milesburg.

Mrs. Gibbs is a daughter of the revolution, her ancestors having fought under Washington to secure their nations independence. Mrs. Gibbs inherited a love of military and also artistic talent, and among her dearest keepsakes from childhood was a small drawing of Gen. Washington on horseback. From this she got her inspiration for the larger painting of Washington which many of our readers no doubt admired at the County Fair.

Mrs. Gibbs values her painting at $100 and it is well worth the price as it is an excellent work of art.

Huntingdon County the first.

Huntingdon county is the first to begin the construction of road building under the Sproul road law. A section 2800 feet in length will be built at Smithfield. The surveys have been made and specifications approved by the Highway Department, and it is the intention of the local authorities to complete the road as soon as possible.

Surveys for roads under the new law are being made in Northumberland county, near Shamokin Dam, and also in Beaver and Crawford counties, and one of these three counties will be the next to receive it share of the State appropriation.

—Miss Margaret Page and Ellery Herman were married at the home of the bride's parents, Mr. and Mrs. John Page, at Rebersburg, Pa., by the Rev. Samuel Smith, Wednesday, Oct. 28. The young man is an employe of the New York Central shops and will reside in Jersey Shore.

$375 SENT FREE.

The Great Specialist, Franklin Miles, M. D., LL. B., Will Send $3.75 Worth of His New Treatment Free.

There never was a better opportunity for persons suffering from diseases of the heart, nerves, liver, stomach or dropsy to test, free, a well-tried and Complete Treatment for these disorders. Dr. Miles is known to be a leading specialist in these diseases, and his liberal offer is worthy of serious consideration.

His system of treatment is thoroughly scientific and immensely superior to the ordinary methods. It includes several remedies carefully selected to suit each individual case and is the final result of twenty-five years of very extensive research and experience in treating this class of diseases.

Each treatment consists of a curative elixir, tonic tablets, laxative pills and usually a plaster. Extensive statistics clearly demonstrate that Dr. Miles' Treatment is at least three times as successful as the usal treatment.

Thousands of remarkable testimonials from prominent people will be sent free. These show Dr. Miles to be one of the world's most successful physicians.

Col. E. B. Spileman of the 9th United States Regulars, located at San Diego, Cal., says. "Dr. Miles' Special Treatment has worked wonders in my sons case when all else failed. I had employed the best medical talent and had spent $2.000 in doing so. I belive he is a wonderful specialist. I consider it my duty to recommend him. For years I had severe trouble with my stomach, head, neuralgia, sinking spells and dropsy. Your treatment entirely cured me."

Mr. Julius Keister, of 350 Michigan Avenue, Chicago, testifies that Dr. Miles cured him after ten able physicians had failed. Mrs. R. Trimmer of Greensprings, Pa., was cured after many physicians had pronounced her case "hopeless."

As all afflicted readers may have $3.75 worth of special treatment free, we would advise them to send for it at once. Address, Dr. Franklin Miles, Grand Dispensary 501 to 511 Main St. Elkhart, Ind. Oct. 28-wk-17t

A Deserving Seamstress.

Miss Ida Koehler of Williamsport a daughter of Dr. W. H. Koehler, the dentist, occupies one of the rooms in Lyon's building as a dress making establishment. She is a first class seamstress and all her work is quaranteed. She solicits a share of the public's patronage.

Miss Kochler is deserving of patronage for more than one reason. She is endeavoring to assist her father in a pecuniary way, he being very ill at the Bellefonte Hospital threatened with pneumonia.

The Matrimonial Market.

The following marriage licenses were issued during the past week by Register A. G. Archey.

Calvin E. Guiser	Mingoville
Mary R. Workman	"
Harry E. Houser	Bellefonte
Alice M. Potter	Pine Grove Mills
Chas Fred Askey	Rush Twp
Mary Ellen Saint	"

Sale of Rugs Continued.

The sale of Oriental Rugs which Elias J. Nehme has been conducting for the past week in the vacant store room in the Eagle Block will continue for this week only.

This sale has attracted widespread attention and if you desire to take advantage of the many bargains offered you will have to do so quickly as they are going fast.

Will Locate at Bellefonte.

Durant L. Furey, who recently accepted a position with the Pennsylvania Telephone company, has been made assistant to the manager of the Bellefonte office. He will leave in a few days to take up his new duties.—Williamsport Sun.

—Tuesday was a beautiful election day. Everything passed off quietly.

—It looks as if the grafters in the Post Office were about to form a union.

—Lawrence Hoover, the driver for the Adams Express Company is very proud these days. He is driving a spick-span new wagon and wears a new cap.

—Home Mission services will be held in St. John's Reformed Church next Sunday morning at 10:30 when the Sunday School and congregation will unite in one service. An impressive part of the service will be the baptism of a large number of infants.

—Prof. J. Angel the celebrated eye specialist will be at the Brockerhoff House, on Wednesday, Nov 11th, from 9 o'clock a. m. to 6 p. m. where his many patients can see him. Come early, so that you will receive early attention as he will be here but one day. Dr. Angel has had a successful experience of over twenty years. If you are troubled with defective vision or troubles arrising therefrom, give him a call. He never fails to give relief. His terms are reasonable, he guarantees all his work and is very safe in doing so for it never fails.

CORRESPONDENCE

PORT MATILDA.

Jesse Woodring and his sons voted 11 straight Republican tickets on Nov. 3.

We are surely having nice weather now. The farmers will surely enjoy this to get their corn in.

Mrs. Tessie Weston who has been home with her parents Mr. and Mrs. H. C. Woodring for three weeks was greatly surprised to see her husband coming the other evening, we think Will got homesick to see his wife and parents. He is employed with Frank Lesher of Pitcairn, Pa. He has charge of one of Mr. Lesher's lumber yards and store.

We were greatly surprised to see our friend H. H. Morrison, wife and baby coming home the other evening to visit his mother Beckie Newman and her parents Mr. and Mrs. H. H. Osman. Mr. Morrison is employed with the P. R R. Co. in the transfer station at Pitcairn.

A great fire came down from the Allegheny mountain int timber lands, known as the Oliver lands owned by Chaney & Thompson Saturday. On Sunday Chaney & Thompson's men and others, about 20 in all worked fighting the fire all day without one thing to eat from when they ate their breakfast until about 3 o'clock when they got the fire surrounded and came out of the woods and found Mr. H C. Woodring who is employed with Chaney & Thompson with lots of provision and plenty of water to drink. The fire did great damage to their timber lands.

Saturday evening the boys and girls were having lots of fun Hollowe'en throwing shelled corn and cabbage leaves around on porches and up against the windows messing up things in general, hiding buggies etc. How is this Eller?

Mrs. Bella Miles of this place had auction sale Saturday afternoon. A clearing sale consisting of under-wear, jewelry, caps, hats, notions, millinery goods of all kinds. It will be continued on next Saturday Nov. 7, in the afternoon. If you want bargains come.

Thursday night Oct. 29, a lot of our boys gathered up their old cow bells and horns and loaded them on Mr. A. Y. Williams wagon and drove 1½ miles and to Mr. A. R. Woodring to serenade their daughter, Mrs. Bird Rothrock. They were treated with apples and cake. Mr. Woodring thought they were an awful noisy crowd.

A re-union of the Woodring families took place Thursday at the pleasant home of Mr. and Mrs. Jesse Woodring, near Port Matilda. Among those present were the following: G. F. Woodring and family, Tyrone; H. C. Woodring and family, Port Matilda: D. E. Woodring, and family, Milesburg; Z. I. Woodring and family, Philipsburg; W. W. Woodring, Janesville, Wis; A. B. Woodring, Tyrone; N. C. Woodring, Stormstown: P. P. and M. J., Woodring, Philipsburg: H. B. and Miss Mary K., at home.

Four generations of the Woodring family were present. This is a remarkable family, everyone being Republicans.

Jesse Woodring and his nine son's voted for McKinley and if they live will vote for Roosevelt.

Others present were Misses Retta Newman and Lucy Balbrige, of Milesburg, and Rev. James Hughes, of Bellefonte, who made a very pleasant address. The occasion was a most delightful one, and will long be happily remembered.

—Lost—A ladys' shoe between Diamond and Curtin street Saturday evening. Finder will please return same to Bailey's Barber shop under Lyons store.

A Missouri Educational Exhibit.

One of the interesting and novel World's Fair exhibits being prepared by the Missouri State University, whose total exhibit is valued at $30,000 is a house and outbuildings constructed entirely by students and composed only of material manufactured by them at the university. The house and outbuildings will be in miniature. They will be equipped in modern style and the residence, which is to be a two-story brick structure, will be furnished with every convenience, including electric lights and water pipes.

Every shingle on the roof and every brick in the house has been manufactured at the university by students. The furniture will be made at the university and the material manufactured at the same place.

The rugs and carpets are to be woven on looms at the university by the students of the manual training department. The house and barn have already been completed.

The barn is equipped with a windmill made by the students, which is entirely practical and can pump water. The house is to be a two-story brick, from basement to attic. This exhibit will be shown in the Palace of Education.

Why Some Young Men Fail.

One reason why many young men fail to retain a position is because they are not interested in the welfare of their employer and go through with each day's work in a mechanical sort of way without putting enthusiasm, thought and loyalty into it. They are not concerned about advancement, perfect workmanship and other characteristics that go to make up the proficient employe, but aim simple to put in their time and receive their salary. Business men are quick to note the interest or lack of interest manifested by their employes and will not retain any who are not zealous in their work. Every young man should realize that his employer's welfare is identical with his own, and not in a spirit of boasting but from a standpoint of loyalty, defend the interests of his firm to the same extent as if he was a member of it.

Scale Works Gone.

The Standard Scale & Supply Company which the Burnside brothers, William and Edgar built up from an infant industry to a paying institution has been moved to Beaver Falls, Pa. The works here have been completely dismantled and on Monday the last car load of machinery was shipped and one of the towns best industries is a thing of the past.

The employees with their families are leaving and all will be gone by the end of the week.

This is quite a blow to Bellefonte and it is to be hoped our capitalists can induce some industry equally as good to locate here and fill the place made vacant by the loss of the scale works.

WHITE HOUSE GUARDS.

Giant Detective and Big Policeman to Watch For Cranks.

Besides the two or three secret service men, uniformed policemen and civilian guards always on duty in the executive offices at Washington a detective in plain clothes has been assigned to the waiting room, says the New York World. He is a giant and is expected to make short work of cranks, for whom it is his particular duty to watch.

A six foot policeman in uniform now stays very close to the north door of the White House, where most of the cranks call.

New Fuse For the Navy.

The navy department has recently placed a contract with a Pittsburg man for the manufacture of 50,000 fuses for shells, says the Philadelphia Press. This fuse, or exploding device, was invented and developed by J. B. Semple of Pittsburg. It is arranged so that the shell cannot be exploded by an accidental fall of even fifty feet, yet when fired from the gun the fuse becomes "armed" and is then so sensitive that the shell will burst on striking light resistance, such as a rope or the branch of a tree.

Adviser to King of Siam.

Edward H. Strobel, who has been appointed confidential adviser to the king of Siam, will soon leave for his new post of duty. He was formerly third assistant secretary of state and was minister to Ecuador and Chile. Since that time he has been professor of international law at Harvard college. He is the first American who has been named for the position he has accepted.

Onward, Right Doing.

STATE COLLEGE, PA., Nov. 1 1903.

Reduce vile sports, drink and smokes that endanger public safety. Your life limb, sight and intellect.

Crown your appreciation of State College, well planted, by your deportment, to encourage the people greater investment on more general, higher education in trade technical schools, towards open door employment in every honorable trade?

The writers thirty years advocacy of State polytechnical schools is delighted to behold official endeavor towards its greatest accomplishment.

REDUCE VILE DRINK

Our State Constitution promises protection to life and property, which applies to Man's and Woman's rights to purchase health drinks. The perverse prohibition creeds preventing the sale of pure grape wines, or beverages made of roasted barley and hops, porter wine, is a violation of the Constitution and creates premature death for want of individual liberty and opportunities to purchase in every village, town or city, those refreshing drinks necessary to live most bright to-morrow. There are a vast amount of concocted wines, porter and beers which it is murder and robbery to sell, and in this age of greatest cheats, we need the speedy enactment of Germany's and England's Excise Laws, appointment of State Liquor Inspectors to have wine, porter, ale and beer, analyzed and for every adulteration impose a heavy fine on sellers of same. Purity and proper age of said drinks would vastly reduce the consumption of whiskey and brandy, a headache turbulent drink, and the enactment of reduced license rate and taxation on wine and beer houses within intelligent reach of the farmer, mechanic and merchant and a heavy taxation on whiskey and brandy, change our State emblems to three words-Equity, Liberty, Independence to aid higher moral force of the people and greater sound Commonwealth.

Respectfully yours

JAMES WOLFENDEN,
Engineer and Machinist.

Among The Sick.

We are sorry to be compelled to note the serious illness of Mrs. Rose Shortlidge who was taken sick while down at her sister, Miss Jane McCalmont's home on North Thomas street Sunday evening. She is reported as resting somewhat easier. The cause of her illness is unknown.

Mrs. Isaac Mitchells condition at noon Wednesday was reported as somewhat improved.

Alfred Bottorf, of Scotia, was operated on at the Bellefonte hospital Sunday for appendicitis. The operation was a success and the patient is getting along as well as could be expected.

Roger T. Bayard and Dr. W. H. Kochler, who are both at the hospital are reported as resting comfortably.

Charles Larimer who was recently operated on for appendicitis had a slight relapse last week but is now again on the mend.

John Guisewhite, who was believed to be recovering from his serious illness is not so well.

Crane Lifts 60 Tons.

The most massive machine ever seen at work in any exposition may now be viewed at the World's Fair grounds in St. Louis. In the Machinery Palace is a Niles crain, used for installing the heavy machinery. This crane can lift a weight of 60 tons and move it to any part of the great 1200-foot structure with as much ease and precision as a man can place an article weighing 10 pounds. The crane runs the entire length of the building on two great steel rails 75 feets apart, and spans, the central nave of the great structure. Electricity is the motive power. A man perched in a cage at a dizzy height sits in a chair and controls every move of the ponderous crane. Workmen attach the object to the great hook suspended to mighty steel wire cables. A signal is given, a lever is turned and with a sound as of a mighty insect confined, the crane lifts its burden and moves to the proper place and deposits its load without noise or confusion.

How to "Frost" a Window.

If you want to shut off the view from and window, you can do it very cheaply by dissolving in a little hot water as much epsom salts as the water will absorb. Paint this over the windows while not, and when dry you will have a very fair imitation of ground glass.

NEW BREED OF CATTLE

Plans of a Kansas Ranchman to Perfect One.

FATHER BEGAN MANY YEARS AGO

Continuing His Parent's Experiments, John Marriage Thinks He Will Accomplish His Object—Present Generation of Animals, He Believes, Will Be Parents of the Future Herd.

A new breed of cattle, cattle that shall be wholly American, is what a Kansas man is bringing to perfection out on the plains of Kiowa county, says a Kansas City dispatch to the New York Herald. This herd is slowly being developed by John Marriage, a ranchman and breeder of Eagle Canyon ranch, near Mullinville. The story of its development is the story of the rise of Marriage from a country boy to a wealthy ranchman.

Marriage is a native of England. About thirty-five years ago his father was secretary of a company which sold milk in London, and he lived with his family at Chelmsford. Later he came to America, settling near Iowa Falls, Ia.

When this pioneer, unused to farming, had built a cabin and paid for his land he found that he had just sufficient means to buy two or three cheap cows and a team. Instead of doing this he spent his last dollar for one pure bred Devonshire cow and one good horse.

He remembered that the cows which had produced the milk noted in London for its purity and strength were the products of many crossings and, while they were not registered, were superior for the purpose to the registered breeds from which they sprang. He sought to produce a similar animal by many crossings. In twelve years he had produced an animal that had characteristics as distinct as had the Hereford, Jersey, Angus or Holstein. He would sell the bull calves, but retained all the heifers, and thus he had the parent herd of Marriage cattle. This is the strain the young man brought to his Kansas ranch.

The Marriage cattle are deep red, horniess, as stocky in build as Aberdeen-Angus, as good milkers as Jerseys, hardy and prolific breeders. Many two-year-old heifers calved last spring and summer or will calve during the fall. The calves grow rapidly, and both male and female mature speedily.

This is the formula, according to Mr. Marriage, by which they are produced: The foundation cow was the pure bred Devonshire, bought by his father thirty-five years ago. Bred to a pedigreed Holstein-Friesian bull weighing 2,400 pounds, the product was a red cow, an excellent milker, named Cherry. She, by a red brindled Aberdeen-Angus bull, produced a pair of brindly roan heifers, and to a red Cruikshank brought several dark red, horniess cattle, which proved useful beef and butter makers and very hardy.

The present herd began twenty-one years ago with the choice of three of these, named Faith, Hope and Charity. These were mated with an imported Suffolkshire bull weighing 2,350 pounds, and in turn a Norfolk polled bull was used.

This crossing produced the present Marriage cattle, which, however, are to be further perfected by crossing with a double standard poll Durham bull, now a calf. Its name is Anak, and it is from the two largest cattle of any breed in the world—Duke of Rose Pomona II., weight 3,000 pounds, and Acacia Gwynne, weight 2,500.

This bull will be the parent of the future herd, and with the resulting crossing Mr. Marriage will regard his breed as perfected and will apply for a charter from the government giving them recognition as a standard breed.

To Have a Gospel Ship.

The Rev. Frank Sandford of the Shiloh, Holy Ghost and Us society is going to seek converts in foreign lands in his own ship, says a special dispatch from Lisbon Falls, Me., to the New York Tribune. He has been offered sufficient funds to build an ocean going vessel which will carry a large number of passengers, and he will sail for Europe to convert the "heathen" over there. He has made plans of the kind of vessel he wants and if unable to buy will advertise for bids.

Selling Second Crop of Strawberries.

J. B. Bowman, a farmer of Caldwell, N. J., is busy gathering a second crop of strawberries, for which he has already reaped a goodly sum in New York, where he obtained as high as $1.50 a quart, says the New York Tribune. The plants are loaded with the fruit, some of which is as large as the famous Hilton berry. There are endless numbers of plants with blossoms, and every day people from far and near visit the Bowman farm to gaze at the sight.

A New Match.

For a year the use of phosphorus matches has been prohibited in Sweden. The new law has resulted in the invention of a match by the Engineers Ladin and Jernander which has been named the "repsticken," or scratch match. It will light against a wet surface. It is said to be less poisonous than a safety match.

Pillow Covers.

If outside covers are an inch smaller each way than the pillows the result will be nice, plump looking pillows, where if the covers and pillows are the same size the effect would be flat and displeasing.

NEW STEAM ROAD RAIL.

Invention to Prevent Accidents Attributed to "Spreading Rails."

J. C. Allendorph of Kansas City, Mo., has devised a steel rail which may replace the standard rail now in use by the railroads of the United States. The new invention has been shown to 300 railroad operating officials, and all have pronounced it a much better and more practical rail than the standard rail now in use, says the Kansas City Star.

The present rail is five and one-half inches high and has a five and one-half inch base. It is solid. Mr. Allendorph's rail is four inches high and has a six inch base. It is a hollow rail. Another improvement which some officials consider the best part of the invention is the device for connecting the rails. Instead of the fish plates now in use the rail is joined by means of a plate two feet long, six inches wide and carrying an upright the length of the plate which fits into the hollow of the two rails to be connected. A complete and satisfactory connection is readily made.

The particular advantage of the invention is that it will prevent the many accidents which are attributed to "spreading rails." As a matter of fact, the phrase "spreading rails" is a misnomer. The train in striking the rail rounding a curve forces the rails over and upside down, causing a wreck. With the height of the rail reduced from five and one-half to four inches and resting on a broader base than the present standard rail the chance for an accident from "spreading rails" is greatly minimized if not entirely eliminated.

The present standard rail carries ninety pounds to the yard. Mr. Allendorph's rail carries but seventy-seven pounds to the yard. With steel at the present quotations, $28 a ton, there is a difference in cost in favor of the Allendorph rail of $571.76 a mile. Mr. Allendorph is confident of securing the adoption of the rail by the larger systems of the country. Mr. Allendorph has been railroading for twenty years.

GATHMANN'S AIR SHIP.

New Flying Machine Propelled by Immense Electric Fans.

Louis Gathmann, the inventor of the Gathmann shell, which received considerable attention on the part of the members of congress some months ago and which was tested at Sandy Hook by officers of the army, has invented a mechanical automobile air ship which he believes will solve the problem of aerial navigation, says a Washington special dispatch to the Chicago Inter Ocean.

Mr. Gathmann's air ship may become of the greatest use from a military standpoint, according to the inventor, but he conservatively says that he does not believe that any air ship will ever become commercially valuable. The ordinary electric fan inverted so that the fan revolves horizontally is the basis of Gathmann's ideas. He has worked out a machine with huge fans, measuring thirty-six feet from tip to tip, which revolve at a speed of 200 revolutions a minute, and, pushing the air from underneath, cause the car attached to rise from the earth.

The fans are on huge spindles operated by a double gasoline engine. Mr. Gathmann has already constructed a model, which he says clearly demonstrates that the air ship of the future must be purely a mechanical contrivance based on scientific principles and not constructed on the idea of flying birds any more than steam engines have been patterned after running horses. By securing power from his engines sufficient to cause his fans to revolve at such high speed as to displace the air, he declares that his machine will rise from the ground and sail at will so long as the power is kept up. The car is of the lightest construction, and gasoline is used to generate the power.

NEW SIGNAL TOWER.

Uncle Sam to Have a Big Observatory on Staten Island.

The United States coast survey officials have begun the erection of a tower on Todt hill, about 400 yards from the residence of David J. Tysen, the highest point on Staten Island, says the New York World. The tower will be seventy-five feet in height and will be capable of signaling with the government building in Manhattan. The ground has been cleared for the foundation.

The value of this particular spot as a lookout or signal station was known to the Aquehonga as well as other tribes of Indians prior to the advent of civilization in the new world. Within the memory of very old citizens of Staten Island there stood a giant oak tree near the spot now being prepared for the tower which the Indians used to signal with friends and, according to the custom of the aborigines, ascend to the highest possible point to petition the sun god to receive the spirit of a faithful departed warrior.

New War Balloon.

Captain Romeo Frassinetti of the First regiment of Italian infantry, stationed at Ravenna, has constructed a new balloon, which probably will be adopted by the Italian minister of war, says the Rome correspondent of the New York World. It is spindle shaped, but has a series of aeroplanes, some horizontal, others vertical, by manipulating which it can be made to ascend obliquely as well as vertically. The inventor has also applied some propellers of a new kind. He asserts that the balloon can travel at the rate of thirty miles an hour for forty consecutive hours.

TROLLEY SLEEPING CAR

Unique Build of Vehicle Designed For Night and Day Use.

EASILY TURNED INTO PARLOR CAR

Head of a Boston Railway Syndicate Believes That Two Years Will See Service Between the Hub and New York—The Run Will Be Made In About Ten Hours.

A through electric service between New York and Boston, in parlor, dining and sleeping cars, will be in operation within two years. This is the confident prediction of James F. Shaw, president of the Boston and Worcester Electric railway, says the New York Herald.

Tracks on land owned by a railway corporation are now being built from Worcester to Hartford, a distance of sixty miles. From Hartford this line will be continued to New Haven, forty miles farther. From City Hall square, in New York, a four track line is to run to Port Chester. The line between Port Chester and New Haven will complete the system that will give Boston through service to Gotham.

With the completion of this line it is stated that residents of New York and Boston will be able to take the trip between the two cities in only twice the running time of the present steam railroads at half the expense and in modern sleeping and parlor cars.

Finishing touches have already been put by a Boston syndicate on the first two trolley sleepers ever built, which are to make their first trips during the present month between Indianapolis, Ind., and Columbus, O. Twenty-four more of these cars are in process of construction.

Over the Boston and New York line will run magnificent cars not unlike those that are to be put in operation in the west. The cars are being built by a car company in Indiana which will own and operate these just as the Pullman company owns and operates its cars over the steam roads.

The smallest of the sleeping cars will contain twenty berths. The compartments for each pair of berths are made by dropping mahogany shutters similar to those used in roll top desks. These are drawn out of the sides and floor and dovetail into each other when up, making a perfectly rigid and firm wall with a doorway. The upper berth is let down from the ceiling on the same principle as is used in the Pullman.

Comfortable upholstered chairs, used in the day parlor car, will be combined to make the lower berth bed. Two of these chairs are put face to face. By pressing a spring the arms spread out, the chairs then becoming one box spring mattress bed, four feet wide and seven feet long. Every modern convenience is to be provided for the passengers, even electric hair curlers for women and electric cigar lighters for men. Each compartment will be ventilated separately, and windows will be raised and lowered by pressing a button.

When the night's ride is over the framework of the compartments will be rolled into the walls and into the floor, the beds will be folded into chairs, and the car will be transformed into a vestibuled coach within half an hour.

The combination sleeping and dining cars will have a ten foot apartment added between the berths and the rear dressing room. Temporary tables will be placed between chairs. It is claimed for the sleepers that the sleeping conveniences will be superior to those used in the ordinary Pullman. The cost of riding will be far less than the rates charged in the others. During a night's run from Boston to New York it will be possible to obtain an entire compartment for $2. Single berths will cost $2, but two travelers occupying the same compartment can get it for $1.

Owing to the fact that there will be no cinders and dust will be obviated, the car windows of the sleeper may be left open all night. Over the Boston and New York electric line the cars will be run at about half the speed attained by the steam roads.

Each car will be fifty to sixty-five feet long and will cost $21,000. It will be about two-thirds as heavy as the regulation Pullman sleeper. The power under these sleepers will be four motors, one to each axle, generating 600 horse power and capable of an ordinary rate of sixty miles an hour.

This new development of the trolley is only a natural step in the wonderful progress of electric transportation, and, in fact, has been foreshadowed by experiments in both this country and abroad. Few persons realize that it is only sixteen years since the first "broomstick" car was given a trial.

Railway Lines For Alaska.

Four hundred and thirteen miles of railway are to be built in Alaska.

There's a story of a farmer and his son driving a load to market. Of the team they were driving one was a steady reliable old gray mare the other a fractious, baky black horse. On the way the wagon was stalled and the black horse sulked and refused to pull. "What'll we do father?" said the young man. "Well" said the father, "I guess we'll have to lay the gad on the old gray." That homely compliment to women: "The gray mare's the better horse" suggests how often when there's an extra strain to be borne it is laid on the woman's back. How often she breaks down at last under the added weight of some "last straw." Women who are dragging along wearily through life can gain real streagth by the use of Dr. Pierce's Golden Medical Discovery. It puts back in concentrated form the strength making material which working women use up more rapidly than it can be restored by Nature in the ordinary processes of nourishment and rest. Dr. Pierce's Pleasant Pellets are universal favorites with women because they are easy to take and thoroughly effective in curing the consequences of constipation.

PRIZES FOR PUMPKIN PIES.

A Difficult Question Decided at a Missouri Pumpkin Show.

If there is anything in the cooking of which the Missouri farmer's wife excels, it is pumpkin pies, says the Kansas City Journal. An incident at the Skidmore "punkin show" recently indicates that the oncoming generation of farmers' wives will be fully equal to their mothers in this important particular. W. J. Skidmore, Skidmore's leading citizen, offered a prize to the country maiden who should make the best pumpkin pie, he to be the judge. Six pies were exhibited. When Mr. Skidmore took a bite of the first, he mentally decided that it would take the prize. When he bit the second, he decided the prize would have to be halved. When he bit the third, he concluded the prize would have to be divided into three parts.

The upshot was that Mr. Skidmore was not able to make a selection. Instead, however, of dividing the prize into six parts, he ruled that each was so good as to deserve a prize, and so he gave six prizes instead of one. Even the New England mince pie has to go way back and sit down when the Missouri pumpkin pie marches upon the table.

Told to Face the Farce Solemnly.

Representative Henry S. Boutell of Illinois, one of the bright men who represents a Chicago district, was recently in Washington and was asked if he intended to remain until congress met.

"No," he replied; "I have a number of things to look after at home; besides, I have to deliver several orations. I believe that is what they are called. Regarding one of these occasions, I had a letter from a friend who was one of the managers of the affair which said, 'Harry, this is a farce, but you can't be too solemn about it.'"

British Tribute to Captain Barr.

Barr, Barr, Yankee, have you won the score?
Yep, sir; yep, sir; three times o'er;
Won for old Herreshoff and won for my mates
And won for the little cup that stays in the States.

Over-Work Weakens Your Kidneys.

Unhealthy Kidneys Make Impure Blood.

All the blood in your body passes through your kidneys once every three minutes.

The kidneys are your blood purifiers, they filter out the waste or impurities in the blood.

If they are sick or out of order, they fail to do their work.

Pains, aches and rheumatism come from excess of uric acid in the blood, due to neglected kidney trouble.

Kidney trouble causes quick or unsteady heart beats, and makes one feel as though they had heart trouble, because the heart is over-working in pumping thick, kidney-poisoned blood through veins and arteries.

It used to be considered that only urinary troubles were to be traced to the kidneys, but now modern science proves that nearly all constitutional diseases have their beginning in kidney trouble.

If you are sick you can make no mistake by first doctoring your kidneys. The mild and the extraordinary effect of Dr. Kilmer's **Swamp-Root,** the great kidney remedy is soon realized. It stands the highest for its wonderful cures of the most distressing cases and is sold on its merits by all druggists in fifty-cent and one-dollar sizes. You may have a sample bottle by mail free, also pamphlet telling you how to find out if you have kidney or bladder trouble. Mention this paper when writing Dr. Kilmer & Co., Binghamton, N. Y.

Home of Swamp-Root.

Don't make any mistake, but remember the name, Swamp Root, Dr. Kilmer's Swamp Root and the address on every bottle Binghampton, N. Y.

CASTORIA

The Kind You Have Always Bought, and which has been in use for over 30 years, has borne the signature of Chas. H. Fletcher and has been made under his personal supervision since its infancy. Allow no one to deceive you in this. All Counterfeits, Imitations and "Just-as-good" are but Experiments that trifle with and endanger the health of Infants and Children—Experience against Experiment.

What is CASTORIA

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is Pleasant. It contains neither Opium, Morphine nor other Narcotic substance. Its age is its guarantee. It destroys Worms and allays Feverishness. It cures Diarrhœa and Wind Colic. It relieves Teething Troubles, cures Constipation and Flatulency. It assimilates the Food, regulates the Stomach and Bowels, giving healthy and natural sleep. The Children's Panacea—The Mother's Friend.

COTTON'S BRAVE STAND

How American Admiral Saved Beirut From a Massacre.

NO BLANK CARTRIDGES FOR HIM.

Commander of American Squadron Told the Vali's Messenger That He Had "No Plans," but Pointed to Guns and Men Ready to Land—Sultan Saw Pointed Argument of Bayonets and Removed the Turkish Governor.

United States Admiral Cotton's masterly tactics saved a most critical situation in Beirut, Syria, three days after his arrival, preventing a general massacre of native Christians and securing against imminent peril the lives, property and honor of American citizens as well as of many Europeans, writes the New York World's special correspondent.

A great armed mob of Mohammedans had attacked one of the Christian quarters, shooting, stabbing, hacking, mutilating, looting and destroying. The military were called out, but did not oppose the mob, their coreligionists, with much zeal. A general panic ensued, and people fled to Lebanon in large numbers.

The foreign consuls sent a committee to Admiral Cotton to ask him to be ready to land men to quell the riot. This committee was most courteously received, but the admiral could make no official statement or promise. He was there primarily to protect American life and property. His next concern would be British life and property and then the lives of Europeans and, if possible, their property.

The committee was invited on deck to see his preparations for an emergency. They saw 500 marines under arms, five field guns ready to be sent ashore, steam launches all around the Brooklyn and the San Francisco, with steam up, ready for instant service.

A strong guard of marines and a corps of signalmen had already been sent to protect the United States consulate and from the roof of that building to keep the ships informed of developments. Officers had been sent ashore to ascertain the exact state of affairs and to make all needful plans and preparations for prompt action.

The Syrian Protestant college, which stands on a commanding height, was chosen as the base of operations. Points were selected for landing the troops and positions for the guns. All night the war ships' searchlights played upon the town, while steam launches patrolled the shore.

On Monday morning, Sept. 14, the vali (Turkish governor) sent a messenger to ascertain Admiral Cotton's plans.

The admiral "had no plans."

Well, what might be his intentions?

He had "no intentions."

But what answer shall the messenger take to the governor?

The messenger was asked if he had observed anything in particular as he crossed the deck of the Brooklyn. He had observed.

"Then," said the admiral, "tell his excellency exactly what you have seen and allow me to add that there are no blank cartridges in this outfit."

Some attempts to restore order were made on shore that day. It was officially admitted that seventeen persons had been killed in Sunday's riot. Private estimates give a higher figure, and a few more murders occurred on Monday and the following night. But word came that Nazim Pasha, vali of Damascus, was on his way to Beirut with full powers to supersede Rashid Pasha.

Many had been the consular and ambassadorial representations before as to the necessity of removing Rashid Pasha, but it was remarkable what point was lent to these arguments in the view of the sultan by the vision of 500 American bayonets and an admiral who has no use for blank cartridges.

Freak of Cards In Whist.

Dr. Samuel Long of New Brunswick, president of the New Jersey Whist association, tells of a remarkable whist hand which was dealt in the rooms of the Elizabeth Whist club recently, says the New York Times. The game was ordinary straight whist. Mr. Hibbard shuffled the cards thoroughly, an old pack, and handed them to E. K. Grant, who passed them to Hibbard's partner, Mr. Stearns, to cut. After being cut they were dealt as follows: Ace of diamonds, trump card, all the diamonds in Grant's hand, all the clubs in Stearns' hand, all spades except seven spot in Dr. Samuel Long's hand, with seven of hearts; all hearts except seven spot in Hibbard's hand, with seven of spades. It is said that several witnesses stand ready to back the story.

A Featherless Broiler.

Charles Robinson of Phillipsburg, near Morristown, N. J., has the latest thing in the way of freaks. His freak is a young pullet about six months old without a sign of feathers or hair on its body, says the New York Times. The chicken's skin is smooth and velvety to the touch and is dark yellow in color. Aside from the fact that the chicken has no feathers it is otherwise normal. Mr. Robinson says he is now considering the advisability of breeding from this chick. His idea is that he may be able to produce featherless broilers, which would have a more ready sale than the other kind, upon which the good housewives spend hours in the picking of pin feathers.

Don't think the time is wasted which you spend in acquiring a graceful gait, for it exercises both a subtle and a mighty charm.

BANQUET IN A SEWER.

Dinner Served in Novel Style at Waterloo, Ia.

In a huge drain pipe brilliant with long strings of varicolored electric lights and banks of gorgeous flowers delegates to the annual meeting of the Iowa League of Municipalities while in session at Waterloo, Ia., were entertained at an elaborate banquet a few nights ago, says the Chicago Inter Ocean. Strains of music floated weirdly through the long tunnel as the delegates dined, and the curving roof flung back with curious echo the speeches which brought the banquet to an end.

The "sewer banquet," as it was called, was the special feature of this year's convention of the league. It was held in Waterloo's mammoth new concrete drain pipe, said to be the largest sewer constructed by any municipality. Mayor P. J. Martin, who presided at the dinner, said that the sewer banquet idea originated in a joke made in the council when work on the sewer was first started. When the sewer was nearing completion it was decided that the scheme was feasible, and it was determined to carry it out.

The sewer is 4,000 feet long and was built at a total cost of $90,000. In its construction 40,000,000 feet of material were used. One block of the sewer was partitioned off into a temporary banquet hall, in which a table 400 feet long was placed. Around this were seated many prominent Iowa officials, who enjoyed the novelty of the affair. Hundreds of electric lights were strung through the "banquet hall." Beautiful decorations and music combined to make the scene one of novel beauty. The banquet ended with proposals of toasts for Waterloo's future prosperity.

CLEVELAND'S LITTLE JOKE.

Ex-President Tried It on a Newsy, Who Called Him a "Fresh Guy."

"Morning papers!" yelled a towheaded newsboy in Pittsburg at Grover Cleveland the other morning as the former president stuck his head out of a car window on the Pennsylvania limited train, says the New York Herald.

"What place is this, son?" inquired the former president.

"Pittsburg, sir. Have a paper?" responded the boy.

"Why, this can't be Pittsburg," said Mr. Cleveland. "The sun is out brightly, and there seems to be no sign of smoke," and he closed the window.

The newsboy met the conductor passing by and remarked, "That man is a fresh guy."

"Don't you know who that gentleman is?" asked the conductor.

"No, and I don't want to know him," replied the newsboy.

"That's Grover Cleveland, formerly president of the United States," said the conductor.

"Hully gee!" exclaimed the newsboy.

YALE MEN AS MONEY MAKERS

Eight Act as Pallbearers, Others Drive Wagons, Cut Wood, Etc.

Some interesting and significant statements are shown in the Yale Bureau of Self Help, recently issued at New Haven, Conn., says the New York Tribune. According to a careful canvass, more than $50,000 was earned by the students during the summer for their winter tuition. Of this amount $10,002 was earned by thirty-seven sophomores.

More money was earned by private tutoring than in any other way, but among the queer ways of earning money was that of acting as pallbearers at funerals by eight men working together. Driving milk wagons, soliciting for laundries, painting, wheeling invalid chairs, selling spring water, cutting wood, selling violets at junior promenades and soliciting for trucking companies were other ways of making money to meet expenses at the university.

Birdless Millinery Show.

Mrs. Wallace Radcliffe and other women prominent in society had charge of a hat show under the auspices of the Audubon society at the Raleigh hotel, in Washington, the other day, says the New York Herald. The leading milliners of the city sent samples of their prettiest hats to show that good style and bird protection are not incompatible. The Audubon society in Washington has many prominent members. President Roosevelt is one of its honorary vice presidents; also Bishop Satterlee and Mr. Charles J. Bell. Mr. and Mrs. Thomas F. Walsh are life members. Mr. Walsh is noted for his protection of animal and bird life on his extensive estates in Colorado. Following the action of the Audubon societies of New York and several other states, the society of the District of Columbia has entered into an agreement with the Millinery Merchants' Protective association.

Odd Way to Encourage Matrimony.

Mayor Charles W. Kempel of Akron, O., recently made a new ruling on intoxication cases in police courts. The usual fine for plain drunks has always been $2 and costs. The mayor has made the rule that single men shall pay this sum, but married men who get under the influence shall be let off with $1 and the costs. J. Y. Anthony of Youngstown was one of the prisoners the other day and when informed of the rule remarked:

"It's only once in awhile a man gets drunk, and he can afford to pay the extra dollar not to have the trouble of a wife and the horrible possibility of a mother-in-law."

New History of Jews.

Rabbi Glazier of Des Moines, Ia., whose synagogue is the oldest west of Chicago, is compiling a history of the Jews in Iowa.

THE ALASKA BOUNDARY

Colonel W. T. Clough's Definition of the Decision.

KEY TO THE KLONDIKE GAINED.

Great Northern Railway's Vice President Says That the United States Now Controls All Approaches by Sea to Alaska and All British North America North of 54.40 Degrees North Latitude.

Colonel W. P. Clough, vice president of the Great Northern railway and also of the Northern Securities company, was asked recently by a reporter of the New York Commercial Advertiser how the Alaskan boundary decision would affect American railroad and commercial interests. He said: "The decision of the Alaska boundary commission gives the United States government control of the approaches by sea to the entire British Klondike region and all that part of British North America lying north of 54.40 degrees north latitude. Naturally American carriers will have a greater advantage in handling business into the general Alaskan regions.

"This decision merely confirms the things that have existed for forty years, with some changes of comparatively little importance. British maps for the past forty years have preserved the same Alaskan boundary line practically as it is now. This boundary line runs from 54.40 degrees north latitude and skirts along the coast above the heads of all the ocean inlets, so that from 54.40 degrees north all water entrances into the country extend through American territory. It was the contention of the American representatives before the board of arbitration that the main purpose of the original concession of that strip of ground to Russia was to cut off the access of British North America north of 54.40 to the Pacific ocean, and that purpose was established historically to the satisfaction of a majority of the board.

"Doubtless arrangements will be made for goods to pass over this strip of United States territory to and from points in British North America in bond, the same as goods now pass through the United States in going to and from Canada and other foreign countries. The principal port of entrance into the Klondike gold region is Skaguay, and there are existing arrangements for passing goods in bond through United States territory. One of the advantages that the American carriers will derive from the definite settlement of this boundary question will be the advantage that must naturally exist from having both ends of transit controlled by the United States government. The Canadian contention was for a boundary line that would cut across the deep inlets between their mouths and their heads so as to leave the heads in British territory. This important point the Canadians lost.

"The western terminus of the projected Grand Trunk Pacific railway will be at Port Simpson, which is at the mouth of Portland channel, the boundary water between British North America and Alaska. Two islands in the mouth of the entrance to Port Simpson were awarded to the United States by the Alaskan commission against the protests of the Canadians, who claimed that it would be a menace to the western terminus of a Canadian transcontinental railway line to have this channel commanded in a military sense by territory in possession of another government.

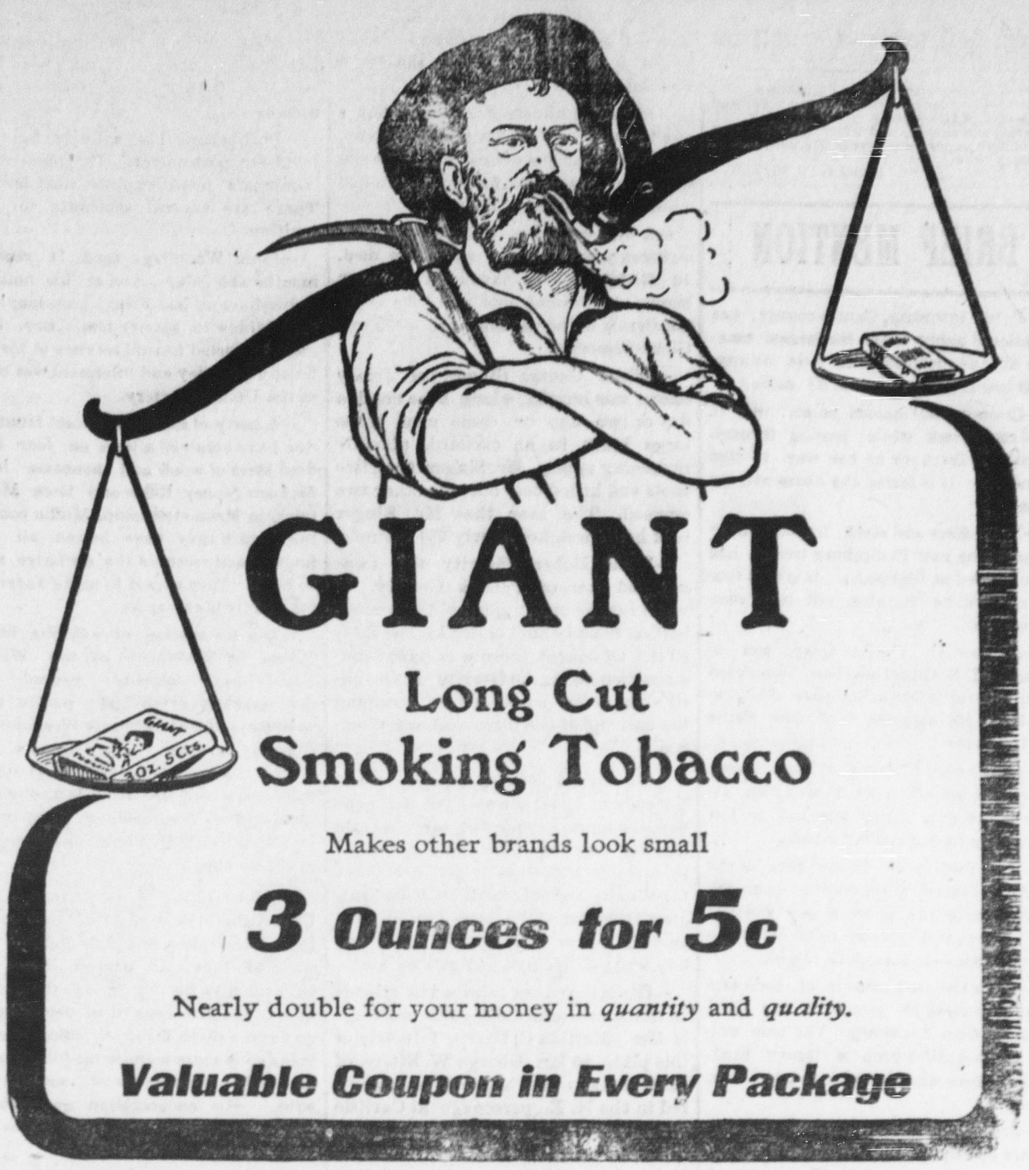
"Practically this Alaskan boundary decision makes more secure existing American projects. I do not expect that it will cause any additional railway construction by American interests; not right away at any rate. Quite naturally the local development of Alaska will be stimulated. All of that region along the north Pacific coast has a fine, mild climate. The mean temperature of Sitka and Philadelphia are nearly the same, that of Sitka being more equable, owing to its location on the ocean. The inlet region of which the United States has been awarded absolute control is covered by magnificent forests, and I presume that minerals will be found there in great abundance. The fisheries, too, are rich. In fact, the territory conceded to us is very valuable in itself.

"The only railroad now in Alaska is owned by American capital, but is in no way connected with Great Northern or Northern Pacific interests. This is only a short line, however, connecting the Lynn canal with the Lewes river, which leads to Dawson."

A New Type of Collier.

The value of colliers to accompany fleets in time of war was thoroughly demonstrated during the Spanish war. Germany at the recent maneuvers along the Spanish coast experimented with coaling at sea, and now the British admiralty is considering plans for an entirely new type of collier. The proposed vessel is 550 feet long, 66 feet wide, with a draft of 27 feet when carrying 10,000 tons of coal. The most teresting fact about it is that the plans call for a speed of eighteen knots, or as high as that of the latest battle ships. The estimated cost of these ships is $1,250,000, which will include patent apparatus for unloading them at sea.

That a great majority of all deaths occur between 1 and 8 o'clock a. m. was shown by the record of 5,000 cases presented to the British Medical association by Dr. Haviland. Forty per cent more deaths occur in the fifth hour of the morning than in the tenth hour.



The Youth's Companion in 1904.

As the years increase The Youth Companion endeavors to keep pace with in all that is wise, beautiful and progressive, and not only to retain but to deserve the honorable and exceptionally high place it holds in the confidence and affection of three generations of readers. The greatest living authors in all branches of literature continue to contribute to it.

Among the important series of articles will be one on the occupation of the farmer in many parts of the world—in England, in Ireland, in India, in Argentina, etc.

The annual Announcement Number of The Companion, describing the principal features of The Companion's new volume, will be sent to any address, Free.

The new subscriber for 1904 will receive all the issues of The Companion for the remaining weeks of 1903 free from the time of subscription; also The Companion Calendar for 1904, lithographed in twelve colors and gold.

THE YOUTH'S COMPANION,
144 Berkeley Street, Boston, Mass.

—Jesse McClenahen, of Milroy, one of Armagh township's efficient school teachers, although bravely holding out to the last, had to succumb to the summons of death Monday of last week. He taught school the Friday prior to his death. Mr. McClenahen was one of the oldest teachers of Mifflin county. His cripple condition made it necessary to use a wheel chair in the school room, but he had the knack of securing the good will of the pupils and was a good disciplinarian. He was a member of the Milroy Free Christian church and was buried from the home of his sister-in-law, Mrs. Nancy McClenahen.

The Pumpkin.

The pumpkin crop is a large one, and since the feeding of them to hogs, cows and horses is about to begin it may be well to recite the fact that pumpkin seeds are entirely harmless to any kind of stock if fed with the pumpkin, but separated from the pumpkin and fed to cattle, the result might be of some evil. The most careful investigations prove that pumpkins and their seeds may be safely fed at the same time.

HE COULD HARDLY GET UP.

P. H. Duffy of Ashley, Ill., writes, "This is to certify that I have taken two bottles of Foley's Kidney Cure and it has helped me more than any other medicine. I tried many advertised remedies, but none of them gave me any relief. My druggist recommended Foley's Kidney Cure and it has cured me. Before commencing its use I was in such a shape that I could hardly get up when once down.,,, C. M. Parrish.

VIN-TE-NA for Depressed Feeling, Exhausted Vitality, Nervous Debility and Diseases requiring a Tonic Strengthening Medicine. It cures quickly by making Pure Red Blood and replenishing the Blood Supply. Benefit Guaranteed or money refunded. All druggists.

FOLEY'S KIDNEY CURE
Makes Kidneys and Bladder Right
Parrish's drug store.

Illinois Central Railroad

The only Railroad in the United States that can ticket you West, Southwest or Northwest via every gateway across the continent.

California

Via New Orleans & the Sunset Limited.

Over the only true winter route, avoiding chilly blasts and high altitudes, via Memphis, New Orleans, Beaumont, Houston, San Antonio and El Paso.

Through Pullman Sleepers and Quickest Time to
HOT SPRINGS, ARK.

A SCIENTIFIC DISCOVERY.

Kodol Dyspepsia Cure does for the stomach that which it is unable to do for itself, even when but slightly disordered or over-loaded. Kodol Dyspepsia Cure supplies the natural juices of digestion and does the work of the stomach, relaxing the nervous tension, while the inflamed muscles of that organ are allowed to rest and heal. Kodol Dyspepsia Cure digests what you eat and enables the stomach and digestive organs to transform all food into rich, red blood. Sold by Green's Pharmacy.

CASTORIA.
Bears the Signature of Chas. H. Fletcher. The Kind You Have Always Bought

Take VIN-TE-NA and the good effect will be immediate. You will get strong, you will feel bright, fresh and active, you will feel new, rich blood coursing through your veins. VIN-TE-NA will act like magic, will put new life in you. If not benefited money refunded. All druggists.

CASTORIA.
Bears the Signature of Chas. H. Fletcher. The Kind You Have Always Bought

CURED OF PILES AFTER 40 YEARS

Mr. C. Haney, of Geneva, O., had the piles for 40 years. Doctors and dollars could do him no lasting good. DeWitt's Witch Hazel Salve cured him permanently. Invaluable for cuts, burns, bruises, sprains, lacerations, eczema, tetter, salt rheum, and all other skin diseases. Look for the name DeWitt on the package—all others are cheap, worthless counterfeits. Sold by Green's Pharmacy.

NOTICE.

All accounts for advertising and job work due the Republican and Daily News to May 1st, 1903, are payable to Miss M. E. Kelly, at the office of the Republican

JOHN C. MILLER.

A POLICEMAN'S TESTIMONY.

J. N. Patterson, night policeman of Nashua, Ia., writes, "Last winter I had a bad cold on my lungs and tried at least a half dozen advertised cough medicines and had treatment from two physicians without getting any benefit. A friend recommended Foley's Honey and Tar and two thirds of a bottle cured me. I consider it the greatest cough and lung medicine in the world." C. M. Parrish.

Kodol Dyspepsia Cure
Digests what you eat.
F. Potts Green.

ANXIOUS MOMENTS.

Some of the most anxious hours of a mother's life are those when the little ones of the household have the croup. There is no other medicine so effective in this terrible malady as Foley's Honey and Tar. It is a household favorite for throat and lung troubles, and as it contains no opiates or other poisons, it can be safely given. C. M. Parrish.

—The Musical College at Freeburg, Pa., is in session, to continue without vacation until the holidays, a term of six weeks or more, at a trifling expense. Pupils can be admitted at any time. Piano, organ, singing, and brass band music taught. For catalogue address,

HENRY B. MOYER.

JAYNE'S TONIC VERMIFUGE
IS A HEALTH BRINGER.

The Bellefonte Republican

TO CORRESPONDENTS.—No communication published unless accompanied by the real name of the writer.
Correspondents should write uponbut one side of the paper. and avoid the use of pale or fancy inks.
EARLE C. TUTEN.

BRIEF MENTION

—Potter township, Centre county, has 82 miles of public roads, the largest number of any township in that county. Rush comes in second with 77 miles.

—Creeceus, the famous pacer, was in a railroad wreck while passing through Oklahoma Territory on his way to San Francisco. It is feared the horse will be lame.

—The boilers and stack for the power house of the new Philipsburg trolley line have arrived at that place. It is said that the cars will be running not later than Christmas.

—Andrew G. Curtin Quay, son of Senator M. S. Quay, has been appointed deputy naval officer at the port of Philadelphia. He assumed his new duties on November 1.

—Mrs. Frank P. Davis, of East Logan street, is confined to her home by an attack of the grip. Her husband is just recovering from a similar attack.

—The revelations in the case of the United States Shipbuilding company ought to give the public a pretty vived idea of what it means to be in on the ground floor.—Indianapolis News.

—Seven hundred bushels of corn ears from four acres of ground is the yield reported from Boalsburg. The man who had this bountiful crop is Henry Fredericks, a man whose word is as good as a bond.

—Dr. L. E. Kidder, of Boalsburg, Centre county, purchased the Mary Jackson farm, near Saulsburg, Wednesday of last week for $2500. This information is gained from the Huntingdon Semi-Weekly News.

—About noon Saturday while Robert Myers was cutting his fire wood at his home in Flemington he was struck in the eye by a stick that was thrown by his axe. The eyelid was badly cut but the eye itself was not injured.

—Miss Mary McQuistion charmingly entertained a dozen of her friends at a Flinch party on Tuesday evening of last week at her home on west High street. The guest of honor was Mrs. J. M. Bentley, of Pittsburg, who washere attending the Yeager—Harper wedding.

—A recently enacted law, which went into effect November 1st, requires that all tobacco must be retailed from the original packages, and in selling cigars, merchants must not hand them out or lay them loose on the counter, but the customer must take them direct from the box.

—Centre County is represented this year at the West Chester Normal School by Misses Josie P., and Helen M. White and Mr. Joseph Butler all of Bellefonte. This is one of the leading educational institutions in Pennsylvania. Dr. G. M. Philips is Principal assisted by one of the strongest and best faculties of teachers possessed by an institution of learning in the State.

—The Harrisburg Telegraph says that while hunting on the mountain near Grantville, recently, a hunter, whose name could not be learned, found the skeleton of a man. The clothes were falling to pieces and a watch, keys and some money were near the remains. The bones were those of George Adley, who disappeared last January after attending a primary election in the Eighth ward. It is thought he was overcome by the cold and froze to death. His watch was identified by a brother.

—The apple crop of 1903 will approximate 36,000,000 bushel, according to the American Agriculturist in its issue of October 24, or considerably less than a year ago. The crop of 1902 was placed at 44,220,000 bushels. New York has the best crop of any of the states, and is now being drawn upon very largely for supplies to place in winter storage. Pennsylvania has a liberal crop, but the quality is not as uniform as in New York. The New England crop is quite irregular. It is good in Maine, but decided shortages are reported many important areas elsewhere. Michigan is harvesting a liberal crop, somewhat uneven in quality. The yield in the west is extremely poor.

—Miss Sue Dickson, daughter of Mr. and Mrs. A L. Dickson, of Tyrone, teaches what is known as the Mt. Vernon school near Gardner station, in Centre county. She comes home at the close of school each week and returns Sunday morning. Last Sunday, on the way to her boarding house, after leaving the train, she came face to face with a big black bear which was lying in the road a short distance ahead of her, the path being in a strip of woods. There was a very much surprised young lady, and likewise a huge bear, which has been frequently seen in that region. Bruin quickly jumped to his feet when he saw the young lady, and at once leisurely trotted into the woods at the side of the road. Of course Sue stopped, but she soon started again—in the direction from which she came, and not at the pace of a snail you may be sure.

—Mrs. Booth Tucker of the Salvation Army was killed Wednesday in a train wreck at Marcellino, Mo., on the Santa Fee Railroad.

—Just now business of the promoters is at a low ebb. After all is said and done, mortgages and the savings banks are the only safe investments for those of limited means.—Wilmington News.

—A man in jail in California waited eighteen years for trial and then died. In Missouri there have been eighteen boodle convictions and not one of the boodlers is in the penitentiary.—St. Louis Globe-Democrat.

—While George Singer, of Jersey Shore, was hunting along Pine creek a day or two ago he came upon three large bears in an orchard, placidly munching apple. Mr. Singer fired two shots and killed one, but the other two escaped. The bear that Mr. Singer took home weighed nearly 200 pounds.

—Little Robert Gerrity, the two-year-old son of Patrick Gerrity, of south Spring street, got hold of a moth ball on Sunday and, childlike, swallowed it. Of course, there was great consternation about the Gerrity home until a physician succeeded in pumping the ball out of the little fellow's stomach.

—The rabbit hunting season opened November 1 but as the date fell on Sunday, the hunters could not take advantage of it until Monday. Rabbits are reported to be numerous in all sections of the country and there will no doubt be a great slaughter of the innocents on the opening day as nearly every man and boy who can handle a gun will be out.

—Cards have been received by friends in Bellefonte announcing the marriage of Mrs. Matilda C. Barry, formerly of this place, to Mr. George W. Etters, of Harrisburg, which happy event occurred in the M. E. parsonage at Carlisle Wednesday October 28th 1903. The cards also announce that they will be at home after November 20th at 1600 Hunter street Harrisburg.

—Mrs. Mary J. Mark, wife of H. A. Mark, died at their home on Eleventh street, in Philipsburg, on Tuesday evening, after an illness with blood poisoning that lasted only a few days. She would have been 30 years old on the 7th of next December. Her husband, with five young children, survives her. Interment was made Thursday afternoon, after services have been held in the Lutheran church.

—Curtis Grenninger, of Williamsport, pleaded guilty in United States court at Scranton Tuesday to the theft of money from letters in the Williamsport postoffice. He was sentenced to one year's imprisonment at hard labor in the Western penitentiary at Allegheny. Grenninger was surprised and disappointed at being sent to the penitentiary. He expected to be sentenced to the Lycoming county jail at Williamsport.

—Some of the weather sharps predict an open winter, basing their opinion on the fact that the witch hazle is in blossom, which they claim to be an infallible sign of a mild winter. Then, too, they say, the hornet nests are built upon the branches of saplings, a dead sure sign of a mild winter. The goose bone and the corn husk prophets have not yet been heard from, however, and their predictions may be of an entirely different character.

—Tuesday evening of last week about 38 gentlemen friends assembled at the home of Dr. and Mrs. J. M. Ward, on Curtin street, at the invitation of the good lady of the house that it was the 45th birthday anniversary of Mr. Ward and she thought it proper to remind him of the fact by an informal and surprise assemblage. The Dr. was naturally surprised to come home and find such a large family on hand, but appreciated the effort so much that he could not even make a speech when his pastor. Rev. John A. Wood, very nicely presented him to the throng and requested him to occupy a handsome leather rocker, the gift of his numerous friends. He was simply beat and turned the house over to his friends. Of course there was a sumptuous repast, with a flow of wit and humor that made the event highly entertaining and enjoyable. Mrs. Ward's brother, P. O. Stiver, of Freeport, Ill., was among the guests present.

—Mrs. Hannah Minerva Adams, wife of Elmer E. Adams, editor of the Lock Haven Times, Thursday evening while on her way, accompanied by two other ladies, to attend the Epworth League convention at Trinity M. E. church in that city was suddenly stricken with heart failure in front of the St. John's Lutheran parsonage. She was carried into the parsonage and a doctor summoned but she expired without regaining consciousness. Mrs. Adams was the daughter of the late S. G. and Catherine Mingle of Lock Haven, and was born at Rebersburg, Centre county. Before her marriage she was a teacher in the schools of that city for fourteen years, and for twenty-one years was superintendent of the primary department of the United Evangelical Sunday school, and was a member of the church board of stewards and was secretary of that body. She was also the leader of the Junior Society of Christian Endeavor, was prominent in the woman's missionary society, and was a cultured musician. Mrs. Adams had a severe spell of sickness last winter and had ever since suffered from heart trouble. She was aged about 44 years.

—Miss Mildred Ogden delightfully entertained a party of her young friends at a hallow e'en party given at her parents home on North Thomas street Saturday evening.

—Philipsburg has a lively fight on hand for postmaster. The present incumbent's term expires next March. There are several aspirants for the position.

—John Woodling, aged 71 years, 8 months and 7 days, died at his home in Rebersburg on last Friday morning; leaving a widow to survive him. Rev. Harman conducted funeral services at his late home on Sunday and interment was made in the Union cemetery.

—A party of sportsmen from Huntingdon have obtained a lease on four hundred acres of wood and mountain land, between Stoney Ridge and Rock Mountains, in Menno township, Mifflin county, from which they have barred all pothunters and reserved the exclusive right to hunt. They expect to make a preserve for strictly lawful sport.

—The installation of exhibits in the Palace of Machinery at the Worlds Fair has already begun. The first machinery to be put in place were three 106 horse-power Westinghouse company engines. They supply the power that operates the great 40-ton Niles crane used in placing the other exhibits. The Westinghouse Company is installing four 2668 horse-power engines in the building.

—Saturday the new pastor of the United Brethren church at this place, Rev. A. Davidson met with quite a serious misfortune. In passing from his bath room to his study on the second floor of the parsonage it is necessary to go down a short flight of steps and in doing so in some manner his foot slipped and he fell breaking his left arm at the wrist. His congregation and friends deeply sympathize with him in this affliction.

—It is said the most handsome private car in the world is owned and used by Charles M. Schwab. It was built at the cost of $50,000 and is one of the most luxuriant things on wheels. It is 70 feet long, including an observation compartment of 20 feet. The ceiling is hand painted. The furniture which, like the general appearance of the car, is Louis XV period and all hand made. Each of the brass bedsteads in the two state-rooms cost $1,000.

—Fifty-eight new cars to be built at a cost of more than $500,000 will be added to the passenger equipment of the Pennsylvania lines west during the year 1904. It was officially announced that the program for rolling stock to be delivered next year has been completed, and ample provision is made for extra passenger, baggage and mail cars to meet the increasing demands of the traffic.

—Mrs. Hannah M. Adams, who was a daughter of the late S. G. and Catharine Mingle, and was born at Rebersburg about 44 years ago, died of heart failure on the street in Lock Haven last Thursday evening. She, with two other ladies, was on her way to attend the Epworth League convention, when she was suddenly stricken and expired in front of St. John's Lutheran parsonage. Her husband, Elmer E. Adams, and several sisters and brothers survive her.

—The Youngmanstown, Aaronsburg and Old Fort Turnpike Co., has appealed to the court for a change of venue in the condemnation proceedings. It will be remembered that they were awarded $3,000 for the property and at once appealed to court. The date for argument of the appeal being set, now they have asked for a change of venue. It is said that a recent meeting of the stockholders of the company all of them voted to accept the award of $3,000, except Mr. Motz and as he holds a majority of the stock it did not carry. A 3½ per cent dividend was recently declared; the first one since 1895.

—Last Saturday Prof. Geo. G. Groff, a member of the faculty at Bucknell College, Lewisburg, Pa., and also a member of the State Board of Health was here in reference to some of the smallpox cases in this county to see whether all the necessary precautions were being taken so as to prevent a spread of the disease. He first came to Bellefonte and then went to Oak Hall, and as far as we can learn was well satisfied with the conditions existing. The three patients are slowly improving and their recovery is expected. The strictest quarantine regulations have been observed, and as a result, there is little possibility of any further spread of the disease from this source.

—We must search out, set free, restore to honor the true life, assign things to their proper places, and remember that the centre of human progress is moral growth. What is a lamp? It is not the the most elaborate, the finest wrought, that of the most precious metal. A good lamp is a lamp that gives good light. And so also we are men and citizens, not by reason of the number of our goods and the pleasures we procure for ourselves, not through our intellectual and artistic culture, not because of the honors and independence we enjoy, but by virtue of the strength or our moral fibre. And this is not a truth of today, but of all times.

—A large bald eagle was shot last week near Jersey Shore. The eagle measured nine feet from tip to tip of the wings and is being mounted by a taxidermist for the Rev. Emerson Karns, pastor of the Epworth church, Jersey Shore, who secured it from the young hunter who shot it.

MRS MACADA TRIPPLE.

Died at Her Home on North Spring Street Thursday Evening.

Thursday evening at 8:15 o'clock the silent angel of death entered the Tripple home on North Spring street and took hence to the realms of glory, a kind and loving mother, friend and neighbor, Mrs. Macada Wilson Tripple, widow of the late W. S. Tripple.

Mrs. Tripple's complaint was Bright's disease, she having first been taken ill about three weeks ago while on a visit to her son, Charles at Philadelphia.

Deceased was born in Cedar Springs, Pa., May 23, 1838 and was the daughter of William and Ruth Wilson. She was married to William S. Tripple at Bellefonte February 23rd 1858 by the Rev. James Linn D. D.

She was a member of the Presbyterian church and a highly respected christian lady.

Surviving her are the following children: Charles of Philadelphia; Mrs. J. D. Geissinger, of Reading; Mrs. G. W. Kerstetter, of Harrisburg, and Mrs. Harry Yeager, of Bellefonte.

She also leaves one brother, C. T. Wilson, of Altoona; and one step-daughter Mrs. James Curtin of Bellefonte.

The funeral which was one of the largest ever held in Bellefonte took place Monday afternoon at 2 o'clock from her late home on North Spring street. The large attendance testified to the high appreciation in which the deceased was held by her friends and neighbors.

The services were conducted by Rev. William Laurie D. D. LL. D., pastor of the Presbyterian church and were very impressive. The casket was fairly covered with many beautiful floral offerings.

The casket bearers were C. C. Shuey, William H. Derstine, J. P. Smith, M. I. Gardner, Robert Irwin, M. R. Johnson. Interment was made in the Union cemetery.

A Former Centre County Man Killed at Pitcairn.

Charles Clayton Gettig, a brother of S. D. Gettig, of this place, was killed last Friday morning while at work in the Pennsylvania Railroad shops at Pitcairn, Pa. Mr. Gettig was a blacksmith by trade and was at work at a bolting machine. In some manner the machine broke down and the unfortunate man was caught in the belting, a heavy shafting falling on him.

The accident happened about half past seven o'clock. While on the way to the hospital a half hour later, Mr. Gettig died.

He was born in Centre county and was 36 years of age. Surviving him are his wife, his mother and several brothers. Mr. Gettig had been in the employ of the railroad company since 1896.

The remains passed through Bellefonte Monday afternoon on the way to Tusseyville where the interment was made.

Death of Jacob G. Breon.

Heart failure caused the death of Jacob G. Breon, a retired farmer, at his home in Millheim on Tuesday morning. He was born in Gregg township, March 5th, 1834, and spent all his life in the pursuit of agriculture.

His first wife was Miss Matilda McKinley and their union was blessed with three son and three daughters. Later he married Mary Weagley, who survives him with ten children. They are Mrs. Leah Markle, of Williamstown; Mrs. Louise Weaver, of Williamsport; Robert, in Kansas; Spear and Mrs. Jennie Kramer, in Penn township; Mrs. Kate Piper, of Lock Haven; Mrs. Ada Weaver, of Philadelphia; Mrs. May Yocum, of Altoona, Wallace and Charles, of Millheim.

Funeral services were held Thursday afternoon and interment was made at the Cross church in George valley.

A Young Wife's Death.

Margaret, wife of Boyd Cox, died Sunday morning at her home in East Liberty Pa., after an eleven days illness from typhoid fever.

Deceased whose maiden name was Margaret Lyon was born in Lyontown, near Bellefonte and was aged 21 years and 8 months. She was the daughter of William Lyon.

She is survived by her husband and little daughter.

The remains were brought to Bellefonte Tuesday morning and taken to her parents home at Lyontown, from which place the funeral took place Tuesday afternoon at 2 o'clock. Interment was made at Curtin cemetery.

UNCLAIMED LETTER LIST.

The following letters remain in the Bellefonte Post Office uncalled for Nov. 2nd, 1903:

Jennie Confer Major Foster, J. D. Houser, David Humphreys, Albert Kephart, May Lucas, Harry Peters, John Sheckler, Dr. J. K. F. Stites.

When called for please say advertised.
W. W. MONTGOMERY, P. M.

—The ladies of the Presbyterian church will hold a bazar in the Chapel on Spring street during the first week in December. Great preparations are being made for the event. Little gifts for Christmas will be sold at moderate prices.
